SEBASTIAN DAWE

OWNER & CEO

CRAFTMANSHIP SINCE 1904

Quality, design and craftmanship since 1904.
It has been over 100 years since the founding of the company, and today ANGULUS shoes is a proud family owned company led by Roland Dawe's grandson, Sebastian Dawe and his sister Clara.

The story began in 1904 in a cobbler's shop in Copenhagen, where school teacher Willy Madsen rebelled against the pointed shoes of the time and turned the shoe industry upside down by developing new, foot-shaped shoes with room for natural movement.

Today, ANGULUS shoes are designed in Copenhagen by our talented designers and handcrafted at our own factory in Portugal.

Every season, we send high quality shoes out into the world and onto the shelves of the best shops. Here, the quality-conscious customer can venture out into the world in ANGULUS shoes, that are not only beautiful to look at but also offer unparalleled comfort whether walking or standing still.

INDEX

This catalogue presents the ANGULUS women's collection, featuring our new and classic styles ready for pre-order with delivery JUNE - SEPTEMBER 2024. To shop the collection please contact our sales representative or contact info@angulus.dk

THE WOMEN'S COLLECTION

ANGULUS women's collection offers a line of beautiful, modern, high quality and long-lasting designs with a timeless expression. Our shoes are designed with great comfort and functionality in mind, incorporated in all styles – ranging from our comfortable sandals to our sophisticated heels and practical boots. The variety of styles offers a balance of practicality, sophistication and playfulness making ANGULUS women's collection very wearable for everyday use and special occasions.

ANGULUS shoes are made of natural leather from European tanneries, containing no harmful substances as regulated by EU directives. The rubber from the soles is tapped from sustainable and CO2 absorbing rubber trees and all remnants from production are recirculated and reused.

ANGULUS was founded in 1904 in Copenhagen, Denmark and has since then created long lasting and sustainable shoes.

ANGULUS is produced in one single factory in Portugal with short distances to the European consumers, our glue is water based and all shoes boxes are made of responsible certified cardboard.

AUTUMN / WINTER 2024

HERITAGE REVERIE

With this Fall / Winter 24 collection we embark on a nostalgic journey to rediscover the rich history and traditions of ANGULUS.

Centered around comfort, high quality materials, crafted details and long lasting designs, this seasonal lineup is dedicated to the deliberate act of deceleration, encouraging a pause to reconnect with what is the very heart of ANGULUS.

With a more grounded aesthetics, our designer has been dedicated to creating those perfect character classics, that will pass the test of time.

Celebrating cherished classics, fits and characteristic materials like the crepe rubber sole, this season present a deep devotion to comfort and more spacious fits and introduces a new dark brown crepe sole, adding a new understated luxury feel to one of our core materials.

The collection offers a timeless yet contemporary interpretation of shoe wardrobe staples for modern living, presented in timeless rich browns, quiet neutrals, deep greens and sleek blacks, accompanied by a carefully curated selection of playful precious metals.
