

Making Payment as Easy as 1-2-3

Dental billing and insurance can be confusing so we would like to provide as much upfront clarity as possible. Payment is due at the time of service.

For your convenience we offer three payment options.

Option 1

Pay your full balance with a credit card at the time of service. We accept Visa, MasterCard, American Express and Discover.

Option 2

Upon request, **receive a 2% discount** by paying your full balance with cash or check at the time of service. (Please note there is a \$70 returned check fee)

Option 3

Upon request, pay your balance in three equal credit card payments. One third of your balance will be collected at the time of service and the same credit card will be authorized for two equal automatic payments at approximately 30 and 45 days after service until your account is paid in full.

Do you need to spread out your payments even more? We accept CareCredit 6 and 12 month payment options. Please note that CareCredit charges an additional convenience fee of 5.9% for the 6 month option and 9.9% for the 12 month option.

If you have dental insurance we will happily file your claim electronically. As an out of network dental provider, we do not have a contracted relationship with your insurance company. Once your claim is processed they will reimburse you directly. As a courtesy, we offer a payment option of three equal automatic payments to help buffer the time delay of your insurance reimbursement. We are happy to help with insurance questions, but please note that it is a relationship between you and your insurance company. Often specific inquiries about your policy coverage and benefit details may be best answered by contacting them directly.
