

DCF-2000 Upgrade Package

The Ronningen-Petter® DCF-2000 Pressure Screen upgrade kit has been developed for better filtering results, easier access and easy and safe use. This update kit guarantees finer filtration, less hassle –way less wear parts and a better performance at a reasonable price!

Kapotek DCF-2000 upgrade

How to easily upgrade the R-P / Eaton DCF-2000 to a new level of filtration experience:

- Less maintenance, less wear parts
- Profit of metric design, EU components
- No proximity switches
- Easy access, no lifting of heavy parts
- Gain retention benefits and get more open area
- Use old installation and piping
- Open old lid, remove internals.
- Insert new internals and lid arrangement
- Optional a purge with no pressure or flow changes
