Glass Division

Protection and distancing

La giusta separazione

La serie Division è stata creata per dividere ambienti e postazioni di lavoro creando spazi raccolti, dove poter svolgere la propria attività e mantenere il giusto distanziamento sociale.

The right division

The Division series was created to separate environments and workstations by creating enclosed spaces, where you can carry out your professional activity and maintain the right social distancing.

La bonne séparation

La série Division a été créée pour séparer les environnements et les postes de travail tout en créant des espaces clos où l'on peut exercer son activité et maintenir la bonne distanciation sociale.

Glass Division

Valorizzare lo spazio

Le pareti di divisione vetrate nascono con l'intento di creare separazioni autoportanti in vetro.

Enhance the space

The glass walls are designed to create freestanding glass division.

Valoriser l'espace

Les parois en verre sont conçues pour créer des divisions autoportantes en verre.

**Ottima visibilità**

Con gli elementi disponibili e la loro modularità si possono creare facilmente divisioni interne in linea con il volere del progettista senza fissaggio a terra.

Excellent visibility

Thanks to the elements available and their modularity, it is possible to easily create internal divisions without fixing them to the floor.

Excellente visibilité

Grâce aux éléments disponibles et à leur modularité, il est possible de créer facilement des divisions internes sans les fixer au sol.

Solidità minimale

L'autoportanza di queste pareti è data da elementi verticali in acciaio uniti a piastre di base sui quali si fissano i moduli vetrati.

Minimal solidity

These walls are freestanding thanks to vertical steel elements combined with base plates on which the glass modules are fixed.

Solidité minimale

Ces parois sont autoportantes grâce à des éléments verticaux en acier unis à des plaques de base sur lesquelles on peut fixer les modules vitrés.

L'insieme dei dettagli

Le piastre di base sono disponibili nascoste o in vista (quadrate, triangolari o circolari).

The details

The base plates can be hidden or visible (square, triangular, rounded).

Les détails

Les plaques de base peuvent être cachées ou visibles (carrées, triangulaires ou rondes).

Nuove divisioni

Per questa linea è disponibile un modulo con porta vetrata scorrevole (spessore 8 mm) realizzato con pannello in vetro temperato, collegato ad elementi scorrevoli disposti nella parte superiore.

New divisions

For this line it is possible to have a glass sliding door module (8 mm thick) made in tempered glass and linked to other sliding elements placed in the upper part.

De nouvelles divisions

Pour cette ligne il est possible d'avoir un module porte coulissante en verre (épaisseur : 8 mm), réalisé avec un panneau en verre trempé, connecté avec d'autres éléments coulissants placés dans la partie supérieure.

Stupire con il vetro

Questo prodotto rappresenta la fusione tra funzione e design, in quanto è un'elegante, solida e durevole separazione tra postazioni di lavoro o con chi lavora con il pubblico.

Amazing glass

This product represents the perfect fusion between function and design, because it is an elegant, solid and durable separation between workstations, which also suits the needs of those who work with the public.

Étonner avec le verre

Ce produit représente la fusion parfaite entre fonction et design, puisqu'il s'agit d'une séparation élégante, solide et durable entre des postes de travail, qui s'adapte aussi aux exigences de ceux qui travaillent en contact avec le public.

disinfettabile senza rischio che si opacizzi
sterilisable without getting opaque
désinfectable sans qu'il devienne opaque

distanziamento sociale

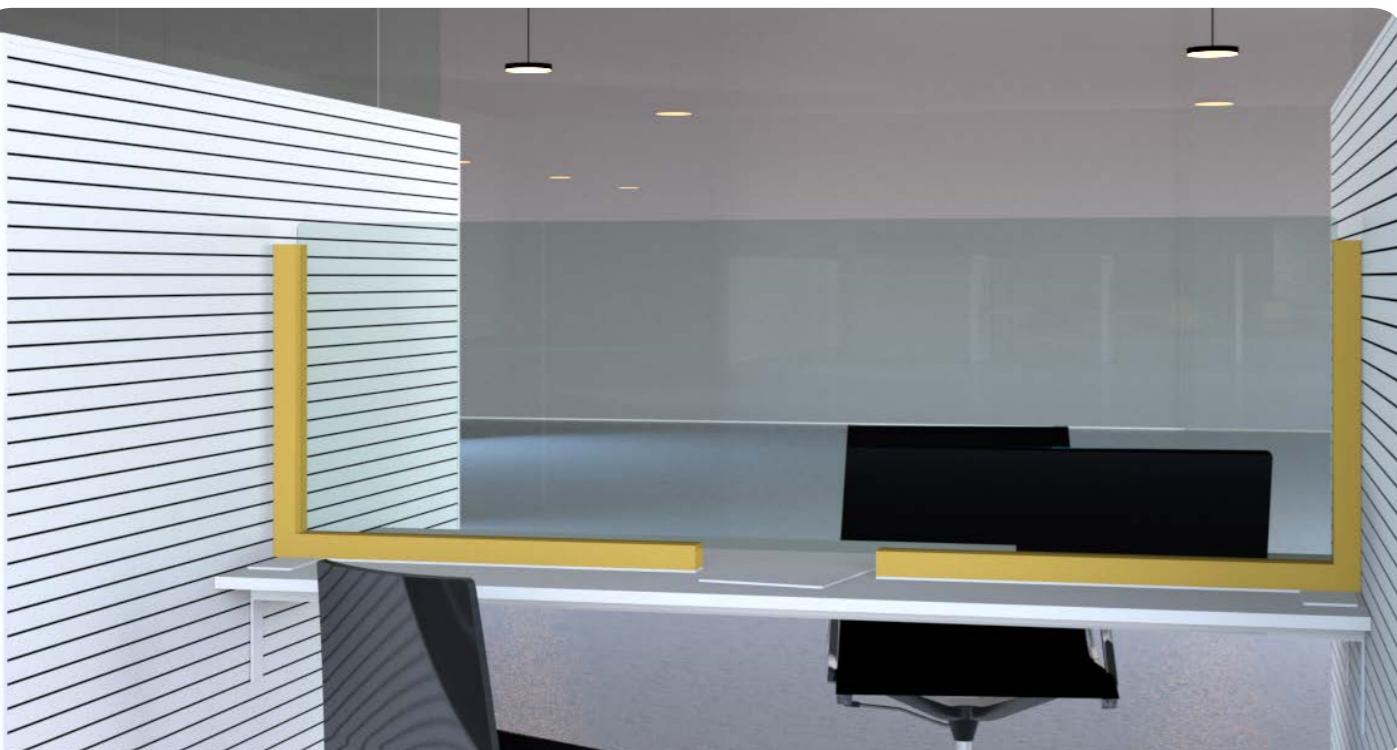

Questi schermi di protezione sono veri e propri DPI (dispositivi di sicurezza individuale) e possono essere installati anche su scrivanie o banconi già esistenti.

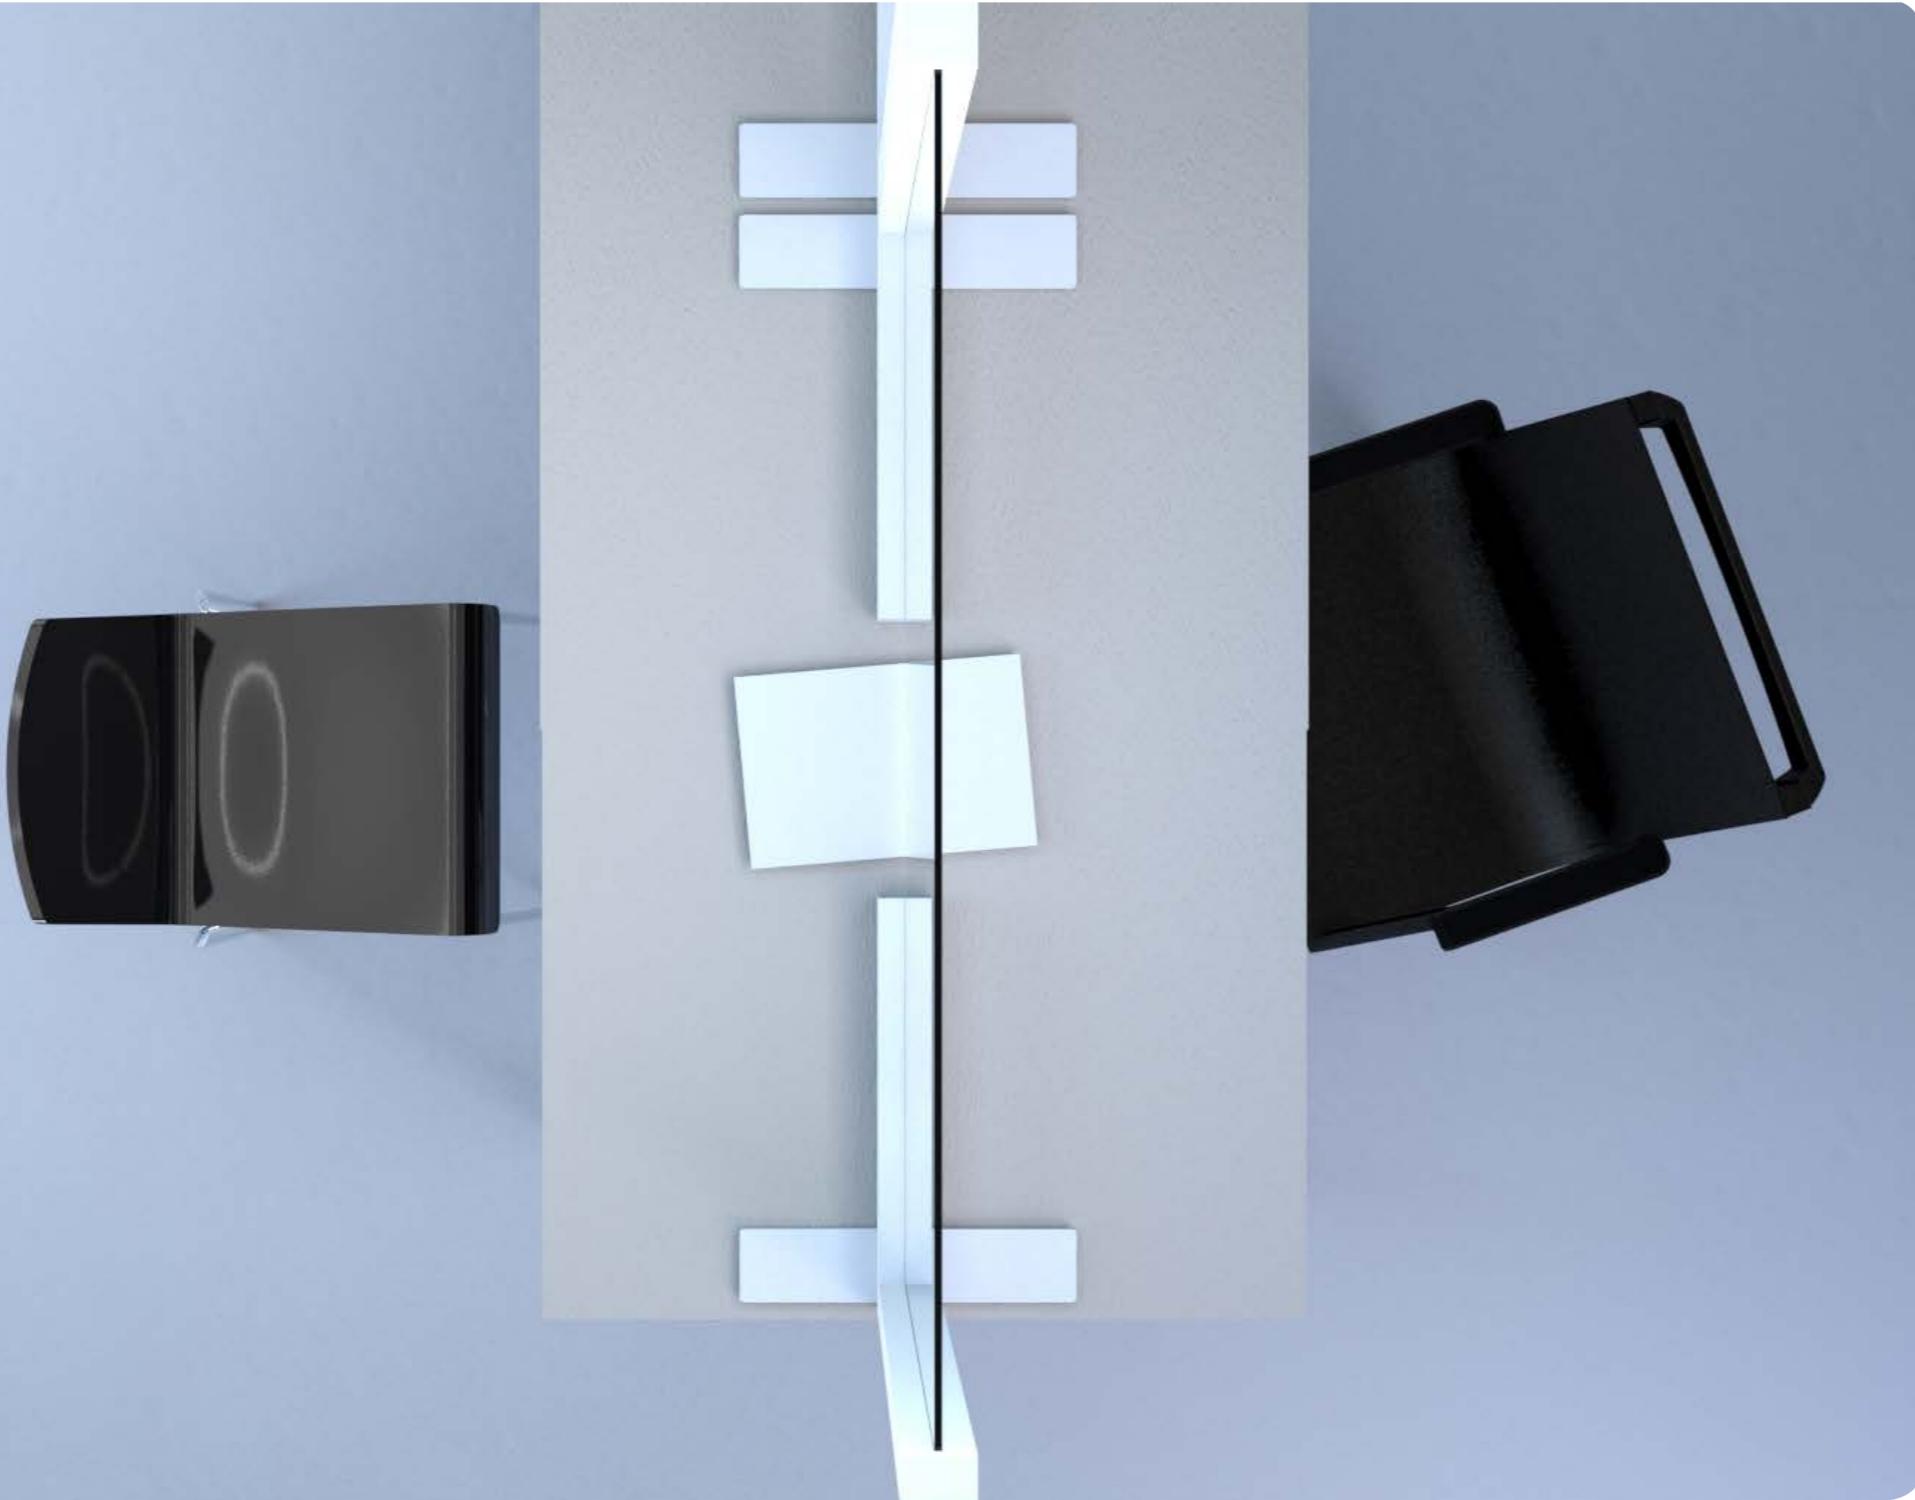

Social distancing

These protective screens are true PPE (Personal Protective Equipment) that can be placed also on existing desks or counters.

Distantiation sociale

Ces écrans protecteurs sont de véritables EPI (Équipement de Protection Individuelle) qui peuvent être installés aussi sur des bureaux ou des comptoirs déjà en place.

Raffinatezza e praticità

Gli schermi di protezione individuale sono in vetro, a filo lucido, stratificato di sicurezza 3 + 3 (mm) arrotondati con raggio 10 (mm) superiormente, incassato in una struttura in legno laccato di sezione 66 x 40 (mm) a perimetro parziale o totale, disponibile in diverse tonalità

Refinement and practicality

The protective screens are in laminated glass (3 + 3 mm) with polished rounded edges with radius 10 mm in the upper part, encased in a lacquered wood structure (section 66 x 40 mm), total or partial perimeter. Available in different colours.

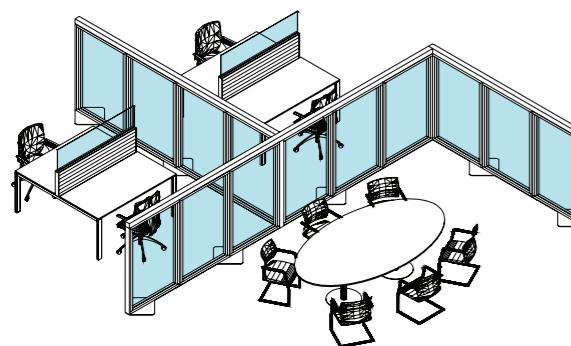

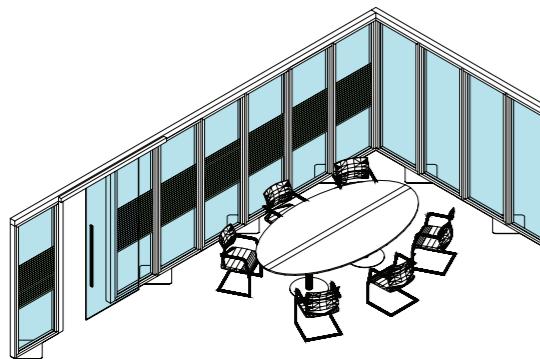

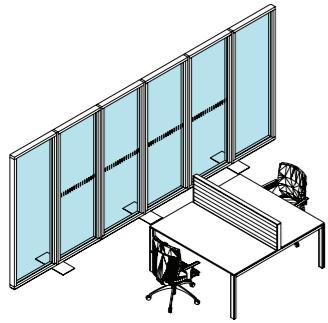

Raffinement et praticité

Les écrans de protection individuelle sont en verre feuilleté (3 + 3 mm) à bord poli et rond avec un rayon de 10 mm dans la partie supérieure, encastré dans une structure en bois laqué (section 66 x 40 mm), périphérie partielle ou totale. Disponibles en différentes couleurs.
