KEN HUBBELL

Ken Hubbell is Founder and President of Ken Hubbell & Associates (www.kenhubbell.com), a social change and strategy consulting firm based in Little Rock, Arkansas. Ken incorporates colorful visuals as a central feature of his social change consulting.

Ken earned a B.F.A in painting and sculpture from Syracuse University and worked in New York City as a practicing artist before establishing his home in Little Rock in 1977. In the 1970s, he had one-man and group shows in NYC; his drawing and sculpture were included in the 1978 Delta exhibition at the Arkansas Arts Center. In 2017, his new work was shown at South Arkansas Arts Center (El Dorado) and Community Creative Center (Fayetteville).

He is returning to his initial love of oil painting and hand crafted sculpture to redefine the art of living by paying attention to how we interact with an ever changing natural environment continually being framed by light and other elements. This is the practice of being awake and attentive.
