5 Reasons to Automate with CUBIC

1.

Backed by industry leaders

Cubic offers integrated solutions from industry leaders such as FANUC, Universal Robot, and KEYENCE.

2.

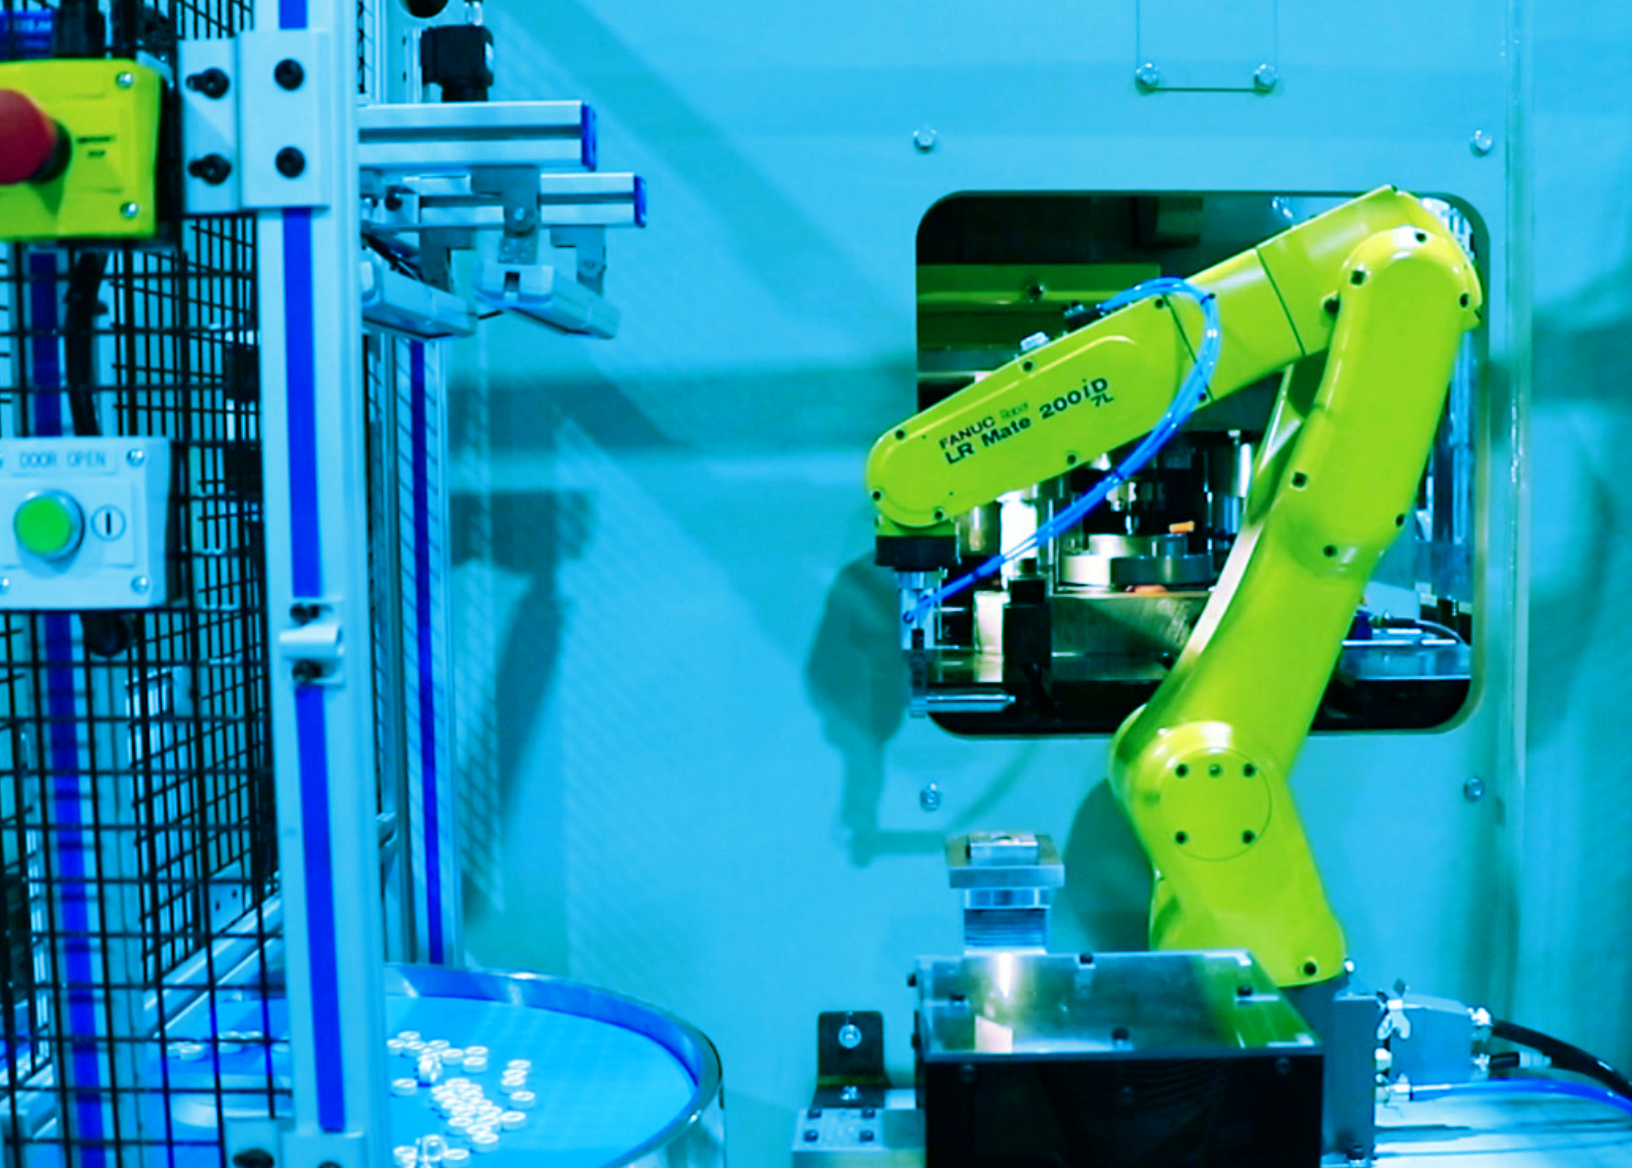

Full team of engineers

Cubic's engineering power ensures that you are provided a tailored solution, specific to your application.

3.

Turnkey projects

Cubic is here to assist you from start to finish. Cubic's engineering team is experienced in developing custom feeding systems, workholding fixtures, and integration solutions.

4.

Lights-out production

Tried and true, Cubic's automated systems have been field-tested in grueling manufacturing environments for lights-out production.

5.

Training and support

Cubic provides installation, training, and ongoing support for all of its clients. Cubic is dedicated to keeping your manufacturing floor up and running.
