

LOW ANGLE ROPE RESCUE OPERATIONAL LARRO

September 24-25-26, 2021

Low Angle Rope Rescue Operational

This 3-Day (24 Hr) California State Fire Marshal FSTEP certified course is designed to equip the student with the techniques and methods for using rope, webbing, hardware friction devices, and litters in low angle rescue situations. Areas covered include; rope equipment, anchor systems, safety lines, Stokes lashing and rigging, mechanical advantage systems, single line and two line rescue systems. This Course Satisfies: Several FF-1 and FF-2 Rescue requirements and the Low Angle Rescue pre-requisite for the new CSFM Rope Rescue Technician.
