CUSTOM HOME BUILDING & REMODELING

Expertise You Can Trust

Our business started in 1963. And with that, an untold number of projects—each one teaching us something. Whether it's a custom home build or a basement remodel, our knowledge isn't isolated. Collectively, we put that

experience to work for you. It's why you can spot a Smith home when you enter one. You can trust will do what's best, not convenient. These time-honored principles continue to mold our modern company today.

Exceptional Homes

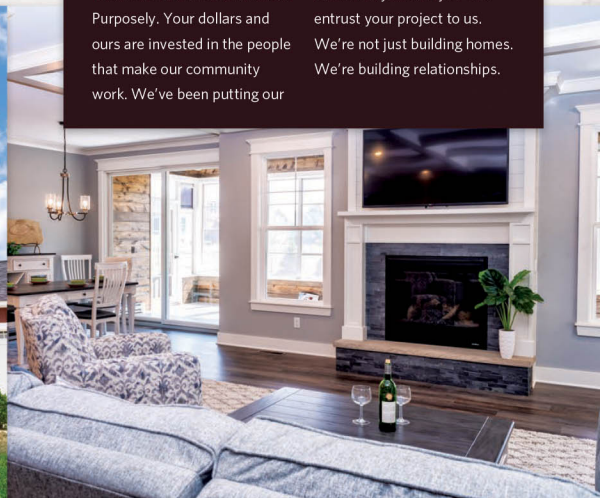

Northeast Ohio knows. And locally, your neighbors know. We make discriminating homes for people who demand the very best. Homes that silently speak for the people who labored and sweated every detail. While you may

not know their name, when you see Smith Homes it's a sign of quality at every level. We work with you at every step to ensure that your vision is executed with precision and beauty. That's the Smith way.

Invested In Our Community

Why is this important? For one, we're not a national or regional company that spreads itself thin. Our focus is narrow. Purposely. Your dollars and ours are invested in the people that make our community work. We've been putting our

money where our mouth is for nearly sixty years. Secondly, our commitment to our local community means you can entrust your project to us. We're not just building homes. We're building relationships.
