

Former Monarch Site Short-Term Walkway Improvements Project
Public Meeting | February 15, 2022

Agenda

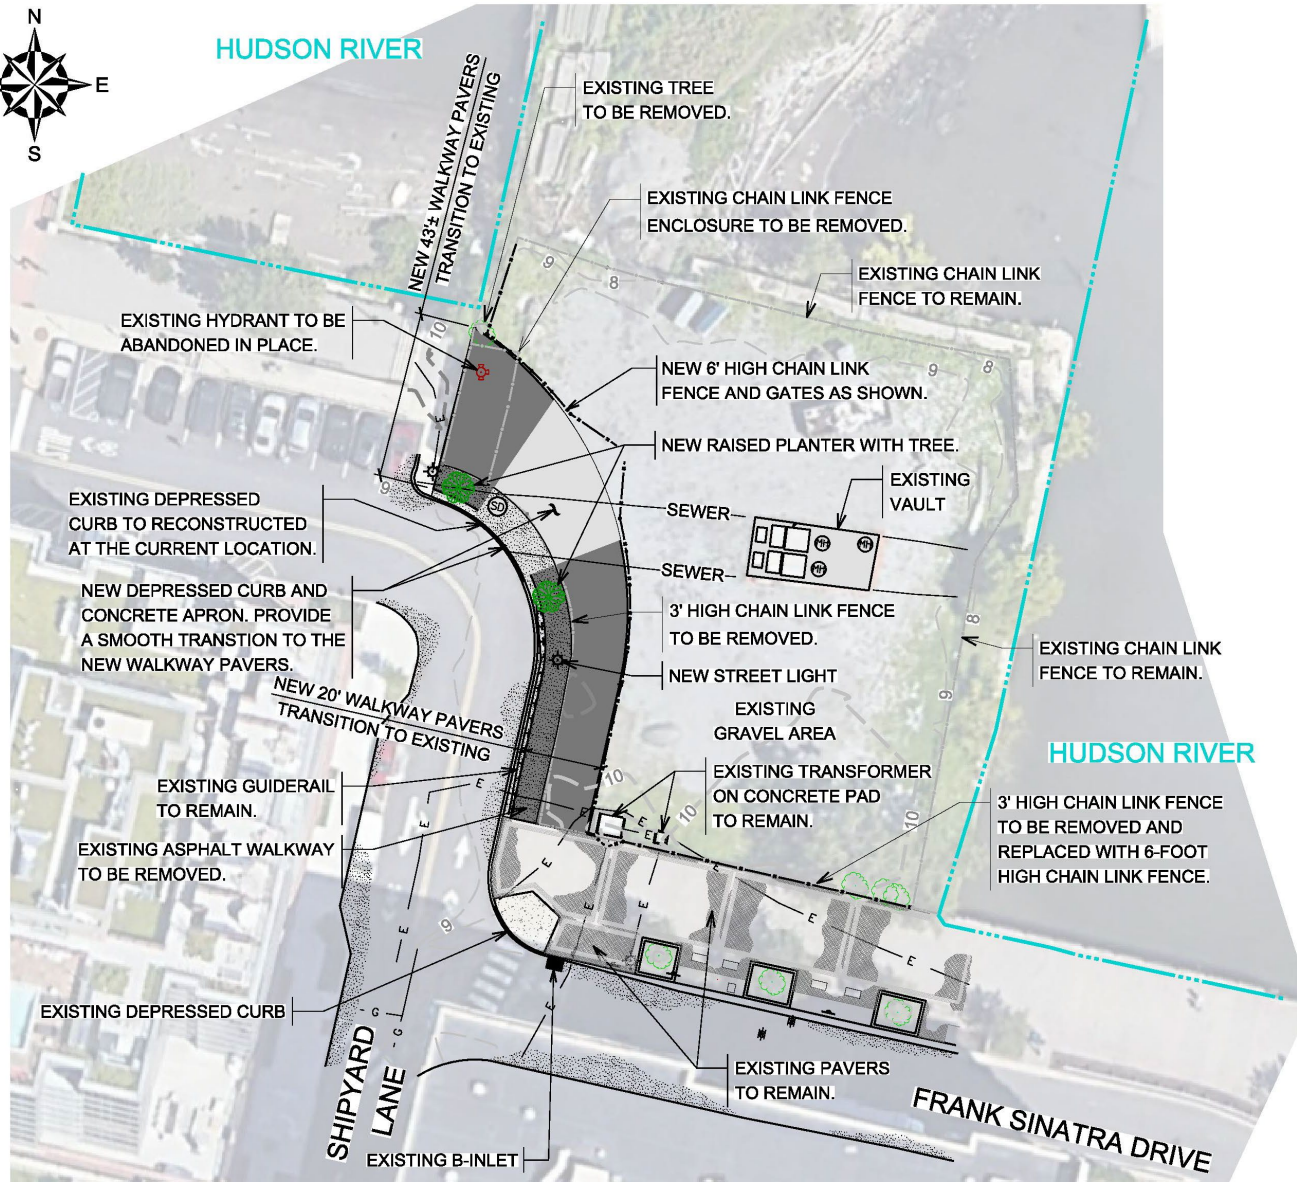

- Introductions
- Project Site
- Short-Term Improvements for pedestrian and bicyclist access, safety, and security
- Future Improvements along the Hudson River Waterfront
- Questions?

Short-Term Improvements

- Replace asphalt with paver walkway on the west side of the site along Shipyard Lane between Frank Sinatra Drive and 15th Street
- Walkway design will match existing Hoboken walkway to the south to the extent practical (e.g., pavers, planters, light post)
- Replace the fence along the east side of the walkway and upgrade fencing along Frank Sinatra Drive for safety
- Debris removal and cleanup of the existing gravel surface
- Add two trees and one streetlight

HUDSON RIVER

Proposed Walkway Area and Planters

Project Timeline

February

- Design

May

- Bidding

July

- Construction

April

- Permitting

June

- Contract Award

Estimated Milestone Completion

Future Waterfront Improvements

- Sinatra Drive from 4th to 11th Streets: planning and design for complete streets improvements currently underway
- Sinatra Drive from Pier A to 4th Street: construction of bikeway and complete streets improvements scheduled for spring 2022
- Removal of abandoned/derelict vessels in Cove: spring/summer 2022
- Rehabilitation of pavers and bulkhead at Pier 16: summer 2022
- Former Monarch Site: planning and design for long-term park development anticipated to begin in fall 2022
