

HELP ELIMINATE

RODENTS

**The City of Hoboken continues
to partner with exterminators
to mitigate recent rodent activity.
But we need your help!**

- Residents must secure all garbage in a trash can with a tight-fitting lid and place it curbside in a garbage can as close to collection time as possible.
- Property owners must keep front yards, back yards, and garbage storage areas clear of overgrown weeds and debris.
- Property owners should seal all cracks in foundations, adjacent sidewalks, and curbs.
- Property owners who see evidence of rodents (burrows, droppings, etc.) on their property, including yards, planters, and adjacent tree pits, must call an exterminator to remediate activity.

Report evidence of rodent activity or
unkempt garbage online at
www.hobokennj.gov/sdl-portal

Per City Code §136-2A
