

### What is reading?

**'I define reading as a message getting, problem-solving activity, which increases in power and flexibility the more it is practised'**

Marie M Clay, 1991- Becoming Literate: the Construction of Inner Control

**BoostingReading@Primary is designed to improve the use of reading strategies and develop understanding; it enables children to become successful, independent readers who read with enjoyment.**

# boostingreading @primary

Education Works Ltd

**Strong reading skills are a key to learning in all areas of the curriculum. For many primary school children, reading can be a mechanical process, lacking in meaning. Children often lack motivation to read and are unable to problem-solve words independently**

**BoostingReading@Primary programme supports the acquisition** of good reading skills and is specifically designed to improve the way children read, enabling them to be independent problem-solvers who read with understanding and enjoyment.

**BoostingReading@Primary is a 10 week intervention programme** delivered one-to-one, by a trained adult three times a week. Each session lasts 15 minutes and includes:

- Practising independent reading skills on familiar texts
- Ongoing assessment
- Working on unfamiliar text with support, leading to independence and understanding

**The training course which can be delivered as a series of** modules, or over two days is designed for Teaching Assistants, Learning Mentors or school based volunteers.

The training provides a good mix of teaching, discussion and activities to practise skills and develop understanding.

It includes:

- Observation of two lessons
- Understanding the reading process
- Developing question skills
- Assessment and close observation techniques

The training and materials have been designed so that **BoostingReading@Primary** can be delivered confidently and easily by the trained adult. The programme also enhances their skills and confidence in supporting literacy effectively, in the class room.

**BoostingReading@Primary** has been redeveloped by Jan Hilditch, a literacy consultant for Education Works in conjunction with other colleagues.

**BoostingReading@Primary is recognised as an effective intervention by the European Centre for Reading Recovery at the Institute of Education, University of London, and is included in Every Child a Reader**
