Advertorial

THANK YOU BURLINGTON!

Dear Burlington Post Readers,

On behalf of our team at Hearing Well Matters, we just wanted to sincerely thank all of those who took the time and effort to vote for our clinic in the recent Reader's Choice Awards! We were very pleased to have been nominated in three Reader's Choice categories, and to have such strong positive results across three categories makes us so very proud and grateful.

At Hearing Well Matters, our passion is helping patients who are living with hearing loss to hear better. Your votes show that our passionate approach is making a difference in the lives of hundreds of Burlingtonians.

Hearing is a sense that is often taken for granted, but it is vitally important for communicating well with our friends and loved ones, and more and more data is emerging that untreated hearing loss is the #1 risk for cognitive decline and dementia, as well as depression and social isolation, as we age. Hearing Well really does Matter!

Owner and hearing instrument specialist Rob Hamilton and wife Debbie (seen in the booth through the window)

Common signs of hearing loss include not hearing speech well in background noise, having to turn up the TV or radio more than in the past, often asking people to repeat themselves, using lip-reading or not understanding your spouse well from another room or floor. If you or a loved one have any of these signs, please reach out for a free hearing test. It's the first step to hearing better!

Sincere thanks again to all who voted in the Reader's Choice Awards. WE TRULY APPRECIATE IT!
