

# MAKING YOUR JOURNEY SAFE & COMFORTABLE

**S**afari by Z only use UK-made Land Rovers. All of our vehicles were converted less than 2 years ago - we extended and widened the bodies of the vehicles to allow more space for you to move around. They have full-height side and front windows, and the roof can be opened allowing you to stand up for maximum game viewing and photographic opportunities. Reclining seats allow for maximum comfort.

# INTO THE WILD

## #1 SAFETY FIRST

Our modern fleet of 4 and 6 seater vehicles are maintained to the highest standard for your safety and comfort. Every vehicle carries two spare tires, and are equipped with first aid kits which our guides are trained to use this in case of emergencies. The vehicles are also fitted with in-built tracking GPS and CB radios.

## #2 MODERN COMFORTS

Our Land Rovers are equipped with on board fridges stocked with cold water, sodas and beers. There are USB charging points, Wifi, binoculars, hand-held fans, hand sanitisers, Bradt wildlife and Swahili books, as well as Maasai blankets for those chilly early morning game drives.
