

Classworks Achievement Study: Reading and Mathematics

STUDY BACKGROUND

Study period: Fall 2018
to Winter 2019

Students evaluated
(math): 28,682

Students evaluated (reading): 35,952

School districts: 44

Grades evaluated: 2 - 8

Students represent diverse
populations

Growth in Both Subjects for Classworks Users!

In a recent study, students using Classworks® experienced substantial growth and exceeded Renaissance® Star suggested growth norms in BOTH reading and mathematics in every grade!

Classworks Users Exceed Star Growth Norms

All students using Classworks showed growth that exceeded Star growth norms! Classworks students exceeded the Star benchmark growth norms across grades 2-8 by an average of 25 points in mathematics! Students in second and sixth grades exceeded norms by 31+ points!

In reading, Classworks students exceeded the Star benchmark growth norms by an average of 29 points across all grades. Second and third grade students exceeded the norms by 32 points!

CLASSWORKS STUDENTS

For this study, Classworks users accomplished the following:

- > 4 hours in instruction
- > 70% assignment score
- > 10 assignments completed

Classworks Users Outperform their Peers

Classworks students outperformed students who did not use Classworks by an average of 20 points in mathematics and 16 points in reading across all grade levels.

STUDENTS EXCEEDED STAR GROWTH NORMS IN BOTH READING AND MATH!

About the study

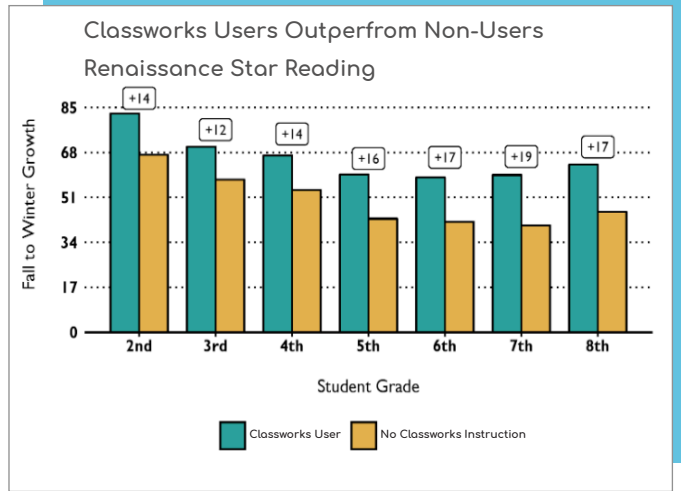

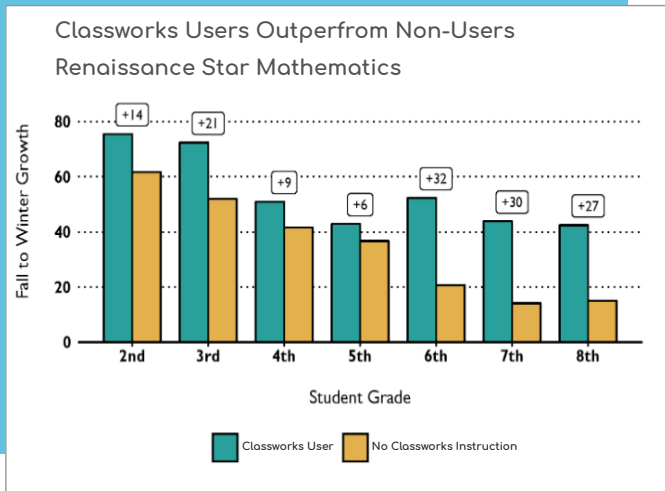

The purpose of this study was to analyze the impact of Classworks instruction on students who took the Renaissance Star Reading® and Math® assessments. Star assessments provide benchmarks which indicate the minimum performance levels required in order to meet end-of-year goals.

The results demonstrate the significant positive effect of Classworks individualized intervention on student growth.

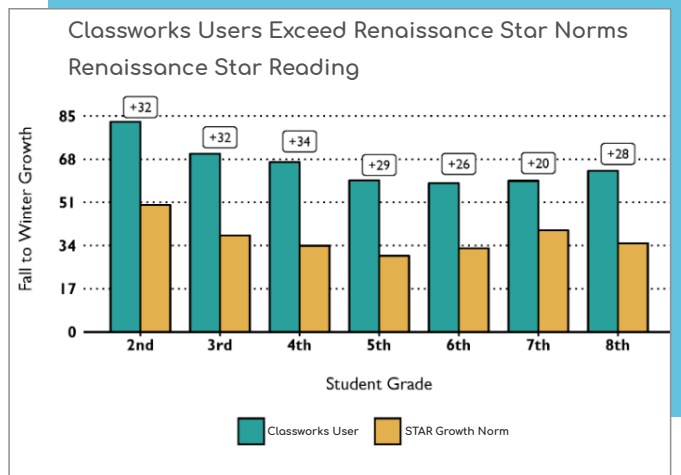

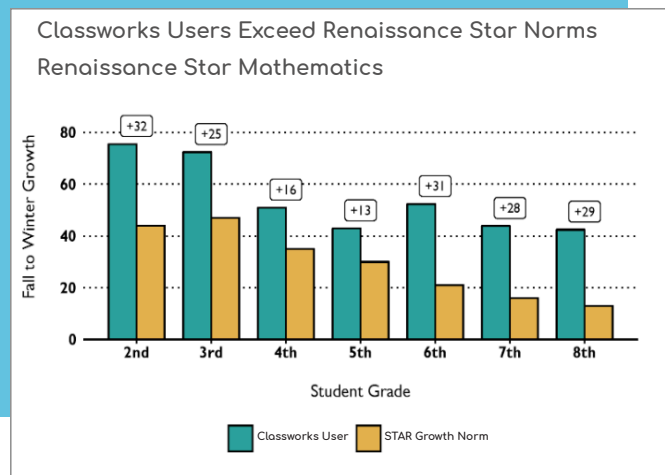

Classworks analyzed Star Reading and Math assessment results from fall 2018 and winter 2019. Results for 28,683 students in mathematics and 35,952 students in reading across 44 school districts representing culturally and economically diverse demographics in grades 2 - 8 were examined.

Classworks students spent more than four hours in Classworks instruction, completed more than 10 Classworks individualized learning assignments, and attained an assignment score average of greater than 70% during the analysis period across the 44 districts examined.

TREMENDOUS GROWTH ACROSS ALL GRADE LEVELS

In every grade, for both Mathematics and Reading, Classworks students outperformed students who did not use Classworks.

In every grade, for both Mathematics and Reading, Classworks students exceeded Renaissance Star Growth norms.
