## Quality Construction

Quality and Service have long been our highest priority here at Cricket Valley Structures. From the very first barn we built in 2005 to the ones coming off the line today, we are continually looking for ways to improve our barns without making you pay a premium price for it. Quality is why we use a Premium Grade 2"x4" for all our studs, 2"x8" top plates, 3 " $\times 4$ " metal truss plates for our trusses and doors, 4" $\times 6$ " runners.... the list goes on and on (Please refer to the "Quality Features" section on page 26 for more details). We greatly value you as a customer and even more as a person, therefore we believe you should be treated with the best customer care in the industry and we would be happy to supply you with a "best in class" Cricket Valley Structures shed. We will stand behind the quality workmanship of our buildings with a 6 year warranty on all of our structures.

Your new Workshop, Garage or Garden Shed is shown in the pages of this brochure. You can decide what model you would like; add windows, flower boxes, shutters and even extra doors if you would prefer. If you can't find the right style that fits your need, please talk to your local sales representative and we will be delighted to see if we can design a barn specifically to fit your needs.

Enjoy!
Your Cricket Valley Structures Team
cricketvalleystructures.com

## Siding Choices

## Premium Siding - Painted DuraTemp

- 50 Year Warranty
- Genuine Plywood.
- No splitting or cracking.
- Includes the paint color of your choice.

*See page 24 for color options
*Built On-Site barns are primed but not painted. (paint provided)

## Metal Siding

- Maintenance Free.
- Paint Free.
- 40 Year Warranty.
- Clean look.
*See page 24 for color options

"When we received our barn it was so much more than I even imagined. You if you are waiting to find the perfect place to purchase you just did. Don't second guess it. You won't be sorry. The quality of this barn is beyond anything you could even imagine. We didn't have one issue at all. It's a dream come true. Thanks again for your skill and choice materials. It's awesome!"
B. Taylor

## Cottage

12' Long Cottage starts with a 4' long Dormer.
Dormer size increases $2^{\prime}$ in length per $4^{\prime}$ of building length.

Includes Dormer, 1-set of 6' double doors, $136^{\prime \prime}$ entry door, 2- windows, 1-6' transom window, overhangs

## OPTIONS

ON THIS 10x20

- Shutters | Gable Accents | Gable Pediments

## On-Site Construction

Can't get a building into your yard? Buy it Built On-site. Our Professional builders will build your barn in your designated area with the same superior Quality and Service that our customers have come to expect from us.

## Starting at

 \$770!

- All Built On-Site barns are primed but not painted.
- It is recommended that all Build on Site buildings be painted within 4 weeks of build date to retain the Manufacturer and Siding Warranty. Ask Sales Rep for more info.
- 1 foot higher sidewalls for Lofted barns and Garages need to be Built On-Site.

Built On-Site (up to 220 sq. ft.) . . . . \$770.00
Additional $\$ 3.50$ per sq. ft. over 220 sq. ft.

## Built On-Site Options

1' Higher Sidewalls (per perimeter foot) . . \$4.75
Heavy Duty T \& G Floor (per square foot). \$1.50

Carry Charge (per foot over $100^{\prime}$ ) . . \$1.00
*Side Porch Cabins \& Cottage Styles are not available for Build-on-Site.

All On-Site Builds are not available for Rent To Own

## Lofted Garden Shed

- Double Door 69" wide 681/2" high
- $2-24^{\prime \prime} \times 36^{\prime \prime}$ Windows
- 2-4' Lofts ( $8^{\prime}$ lofts on $28^{\prime}$ barns or larger)
- $76 \frac{1}{2} 2^{\prime \prime}$ Sidewalls ( $731 / 2^{\prime \prime}$ on $14^{\prime}$ wide)

## Garden Shed

- Double Door 69" wide 681⁄2" high
- $2-24^{\prime \prime} \times 36^{\prime \prime}$ Windows
- $761 / 2^{\prime \prime}$ Sidewalls
- $5112^{\prime \prime} / 12$ Roof Pitch

## Lofted Barn

- Double Door 69" wide 681⁄2" high
- $8^{\prime}$ Loft
- $761 / 2^{\prime \prime}$ Sidewalls ( $731 / 2^{\prime \prime}$ on $14^{\prime}$ wide)

## Lofted Garage

- $9^{\prime} \times 7$ ' Insulated Garage Door w/slidelock
- ( $8^{\prime} \times 7^{\prime}$ Garage Door on $10^{\prime}$ Wide Garages)
- 36 " Single Door
- $766^{1 / 2 "}$ Sidewalls ( $731 / 2^{\prime \prime}$ on $14^{\prime}$ wide)
- $8^{\prime}$ Loft
- $31 / 22^{\prime \prime} / 12$ Roof Pitch
- Heavy Duty Floor

## Garage

- $9^{\prime} \times 7^{\prime}$ Insulated Garage Door w/slidelock
- (8' $\times 7^{\prime}$ Garage Door on 10' Wide Garages)
- 36 " Single Door
- Sidewalls ( 94 " - Metal) ( $881122^{\prime \prime}$ - Wood)
- /12 Roof Pitch ( $3^{1 ⁄ 2 \prime}$ - Metal) ( $5^{1 ⁄ 2 \prime 2}$ - Wood)
- Heavy Duty Floor
"I purchased a 10'x16' garden shed. Well built, fast delivery and looks great. We couldn't be more satisfied! Thanks so much. "

Todd - Cincinnati, Ohio

## Mini Barn

- Double Door 69" wide 7012" high
- Double 2'6" Doors on 8' Wide Barn (or Single 48" Wide Door if desired)
- $4^{\prime}$ Loft
- $4^{\prime}$ Sidewalls

## Utility

- Double Door 69" wide 681⁄2" high
- 76½" Sidewalls
- $51 / 2^{\prime \prime}$ Roof Pitch

## Cabin

- 36" 9-lite Steel Entry Door
- 2-24" x $36^{\prime \prime}$ Windows
- 6' Porch
- 84" Sidewalls
- $51 / 2^{\prime \prime} /$ Roof Pitch

## Overall Barn Heights

## Lofted Buildings

$10^{\prime}$ wide- 11' $4^{\prime \prime}$
12' wide- 11' 7"
14' wide- 11' $9^{\prime \prime}$

## Garage

$14^{\prime}$ wide- 12'
Mini Barn
8' wide- 8' 8"
$10^{\prime}$ wide- $8^{\prime} 11^{\prime \prime}$
$12^{\prime}$ wide- $9^{\prime}$ 2" $^{\prime \prime}$
Utility/Garden Shed
8' wide- 9' 2"
10' wide- $9^{\prime} 8^{\prime \prime}$
$12^{\prime}$ wide- $10^{\prime} 3^{\prime \prime}$
$14^{\prime}$ wide- $10^{\prime} 9^{\prime \prime}$

## Color Options

DuraTemp Paint Colors:

Metal Colors:

- Due to the affect of light, age and the printing process, these samples may vary slightly in color or sheen from the actual materials.

## Metal Siding

Metal sided barns are framed with $2^{\prime \prime} \times 4^{\prime \prime}$ studs $24 "$ o/c with $2^{\prime \prime} \times 4^{\prime \prime}$ metal fastener nailers approximately every 32 " horizontally on the outside of the studs. $2^{\prime \prime} \times 8^{\prime \prime}$ top plate on all metal barns except garage style.

## Floor Specs.

## Quality That Lasts a Lifetime

Compare these quality features and see why Cricket Valley Structures is your choice for Superior Quality that lasts a lifetime!

3"x4" Truss plate

## High Quality Standard Features:

- 4"x6" Runners: Pressure Treated \& stronger than any other runners.
- $3^{\prime \prime} \times 4$ " Commercial grade truss plates: No plywood gussets!
- Aluminum Garage Door Tread Plate: Cricket Valley Exclusive!
- We only use 3/4" Treated Plywood Flooring: Lifetime warranty, real plywood!
- 2"x8" Top Plate: Compare this to a single 2"x4" top plate.

## More Standard Features Include:

- 2" x 4 " Treated Joists
- EPA Approved Treated Products.

Extruded Aluminum Garage Door Tread plate

- High Quality Aluminum Tread plate on all standard doors.
- Insulated Vapor Barrier on all Metal Roofs.
- Wayne Dalton® Insulated Garage Doors.

4"x6" runners versus 4"x4"

## pro'wood <br> PROFESSIONAL GRADE*

- Fresh-looking, more natural appearance than other copper-based treated products. i.e. ACQ, CCA.
- Can be placed in direct contact with aluminum.
- Carries a lifetime warranty against rot, decay and termite infestation.
- Clean, odorless, non-staining and non-irritating to humans, animals and plants

The only new exterior wood preservation system that is EPA approved!

4"x6" Runners

## Permits and Drawings

- Customer is responsible for all permits, zoning and HOA requirements.
- Drawings provided upon request
- Engineered prints can be purchased (ask for pricing).

## Why Metal Roofs?

- 40 Year Warranty
- Maintenance Free!
- Paint Free!
- Leak Free!
- Rust Inhibitor Edge Coat

Our roof system has been proven to withstand winds in excess of 70 mph with no damage!

## *Our Metal is warm-formed to prevent cracking and chipping of paint!

## Product Information

## Standard in all our roofs!

- Reduces building condensation.
- Forms an effective wind and vapor barrier.
- Reduces heat loss in winter and heat gain in summer.
- Not affected by moisture and humidity.
- Bird, rodent and insect resistant.

To increase corrosion protection for greater longevity, visual appeal and value, McElroy Metal now ThermoForms all Max-Rib ${ }^{\oplus}$ galvanized and galvalume metal panels with siliconized polyester coatings.

## Why?

ThermoForming of metal panels reduces the risk of premature corrosion of roof and sidewall panels by significantly reducing tension-bend cracking of the paint and metallic coatings.

What is TENSION - BEND CRACKING?
At colder forming temperatures, the substrate and siliconized polyester paint coatings become brittle, and the forced bending by the rollers may crack both layers as shown. This exposure point is unprotected from oxidation (rusting) of the base metal substrate. Because Kynar $500^{\circledR}$ coatings are more flexible, tension-bend cracking is not an issue with Max-Rib ${ }^{\circledR}$ Ultra.

Where do
TENSION-
BEND
CRACKS occur?

## The THERMOFORM Process . . .

Prior to entering the roll-former, the coil sheet enters a heater that raises inner and outer temperatures to $>120$. This process increases the ductility of the paint coating as well as the ductility of the galvanized or gavalume metallic coating.

ThermoForming prolongs visual appeal of Sil-Poly coated galvanized G60 substrate:

Cold forming of panel with G60 galvanized substrate and siliconized-polyester topcoating produces tension-bend cracks in the siliconizedpolyester paint and galvanized coatings. (150x mag.)

With ThermoForming, note there are no cracks in the siliconized-polyester paint and galvanized coatings. This panel was ThermoFormed at 124F. (150x mag.)

ThermoForming adds life, looks and value to Sil-Poly coated galvanized G90 substrate:

Not cracking as much as the other coatings, the siliconized-polyester coated G90 substrate still reflects tension-bend cracks in both galvanized and paint layers. This panel was cold-rolled at 72F. (150x mag.)

ThermoForming eliminates tension-bend cracking in G90 galvanized strata as well as in the siliconized-polyester paint coating. This panel was ThermoFormed at 133F. (150x mag.)

| Max-Rib Commodity | Max-Rib 100 | Max-Rib II | Max-Rib Ultra |
| :---: | :---: | :---: | :---: |
| ThermoFormed | ThermoFormed | ThermoFormed | NOT |
| REQUIRED* |  |  |  |

*Kynar $500^{\circledR}$ coatings are so flexible that tension-bend cracking does not occur. ThermoForming not required.
All data taken from a Project by the Research and Technology Center of United States Steel Corporation in Monroeville, PA. and is used with their permission.

## Tired of driving across town to get to your storage?

Now you can have a storage unit in your own backyard, and after making just 36 monthly rental payments the building is yours.

## Why rent a storage unit when you can have your own Rent-To-Own?

## Rent-To-Own

Rent a building in the size, color and style you choose, delivered to your own backyard, and own that building after renting for only 36 months.

All that is required to enroll in our rent-to-own program is an initial payment of one month rent, a security deposit equal to one rental payment (including sales tax and damage waiver fee if applicable) and the ability to make 35 monthly payments thereafter. Since this is not a loan, no credit check is required. You simply rent on a month by month basis for 36 months.

You may cancel the rental contract at any time simply by calling us and requesting that we pick up the building at no further cost to you. You may also purchase the building at any point by simply paying $60 \%$ of the remaining balance on your 36 month lease.

If you choose our Rent-to-Own plan, you do not acquire any ownership rights unless you pay the full amount required for ownership or exercise an early purchase option.

Rent-To-Own is made available by:
Country Classic Rentals, LLC
PO Box 2
Russellville, Ohio 45168

> All On-Site Builds are not available for Rent To Own

## Delivery and Setup

- Reduces yard damage.
- Enables delivery in moist areas.
- Easily maneuvers thru tight spots.

## Site Preparation Recommendation

## WE RECOMMEND -

Level Ground - Base should be 12" larger than building on all four sides. Remove 3-4" of sod and fill back in with No. 57 limestone or gravel, making sure that the entire area of stone is level. Or, put $4-5$ " of gravel on top of sod, then make sure it is level and compacted.
Sloped Ground - Remove 4-5" of sod on high end and build up low end using 4"×4"s fastened together on top of each other creating a box frame, fill frame with No. 57 limestone. Level and compact stone. If barn is NOT built On-Site, pad must be accessible for equipment to move shed into place.
Please only use only limestone gravel! No smaller than crusher run and no bigger than \#5.

> Customer is Responsible for All Anchoring, Zoning, and Permits.

Your Professional Dealer

We level and block to a maximum height of $12^{\prime \prime}$. There is a charge of $\$ 10$ per block used over $12^{\prime \prime}$.

We appreciate that you chose to look at our quality-built buildings.

## CHOICES

We all have many choices to make in our journey through life. From birth till death we travel between the eternities. May the choices we make help us to find calmness in our soul, peace in our heart, a meaningful future, and a safe eternity...For God so loved the world, that he gave his only begotten Son, that whosoever believeth in him should not perish, but have everlasting life. JOHN 3:16

Your Mennonite Friends
