

# HI-MAG MOLASSED BLOCK

## PREMIUM COMPLIMENTARY MINERAL FEEDS

### ANALYTICAL CONSTITUENTS

Sodium	%	8.00
Calcium	%	3.70
Magnesium	%	15.50
Phosphorous	%	

### NUTRITIONAL ADDITIVES

Copper Sulphate Pentahydrate	mg/kg	10000
Zinc Oxide	mg/kg	8000
Manganese Oxide	mg/kg	5050
Copper Glycinate (Protected Copper)	mg/kg	
Calcium Iodate Anhydrous	mg/kg	565
Carbaltoous Carbonate Monohydrate	mg/kg	140
Sodium Selenite	mg/kg	80
Vitamin A	Iu/kg	
Vitamin D3	Iu/kg	
Vitamin E	Iu/kg	

Hi-Mag Molassed Mineral Block is a complementary mineral feeding stuff recommended for feeding to Suckler Cows and Lactating Cows during high risk times for grass tetany (hypomagnesemic tetany). Hi-Mag molassed mineral blocks contain high levels of trace elements which will help to improve the trace element status of the herd.

- Helps prevent grass tetany in cattle grazing lush forages.
- Adds calcium to the diet when factors in lush forage reduce the availability of calcium.
- Lush forages contain a high level of potassium which decreases the absorption of calcium and magnesium.
- Balances diet for optimum health and production.
- Vitamins A, D, and E are required in many body processes for health, reproduction, and growth.
