

Medication Therapy Management

Guaranteed Comprehensive Medication Review Completion Rates

Full Service Support through Innovative MTM Solutions

MedWise HealthCare™ collaborates with health plans to select custom guaranteed Comprehensive Medication Review (CMR) completion rates for their programs. Each program helps health plans support the well-being of their members and meet CMS requirements.

- Delivers proactive and personalized member engagement through digital, telephonic, and face-to-face methods
- Supports all languages
- Provides a fully compliant CMS MTM program
- Utilizes software that maintains over 1,200 clinical algorithms
- Offers customizable rule sets that best apply to your member population

Discover Real Impact with our Quality Improvement Program

This program is fully customizable to your clinical offerings, helping you achieve improved quality measure performance and adherence. MedWise HealthCare delivers precision targeting to support Star, HEDIS®, and Display measures. Meet your members where they are and address gaps in care through robust digital capabilities including:

Email

Text messages

Online chat

Increase member engagement with Prove's Fonebook™ – A new exclusive technology that fills the gaps for missing and incorrect member contact information through automatic updates.

Clinical programs for Medicaid, commercial plans, and self-insured employer groups are also available.
