

# Gold Coast Airport Group Guide

# The Gold Coast

## Well connected

The Gold Coast is well connected to all major population centres across Australia. 25–32 flights per day between Gold Coast and Sydney/Melbourne.

Served by all of Australia's major airlines.

\*International routes pending borders opening.

# Gold Coast Airport

Owned and operated by Queensland Airports Limited, Gold Coast Airport is one of Australia's fastest-growing airports. The Gold Coast is Australia's premier tourist destination – stretching over 57 kilometres of picturesque coastline, and bordered by a World Heritage-listed rainforest. Thanks to our unique location on the Queensland and New South Wales border, we are also the second-largest airport in both states.

Gold Coast Airport will open its game-changing, expanded multi-level, 30,000 sqm terminal later this year. The expansion will double the terminal footprint and include additional retail and new boarding facilities, a large departure lounge, baggage handling and border control facilities. Four new glass aerobridges will also be used for both international and domestic flights.

Both large and small groups are welcome at Gold Coast Airport and food and beverage packages can be tailored to suit your needs and requirements.

\*Information correct as at June 2022.

# Retail refresh

Gold Coast Airport is transforming its food, beverage and retail outlets in the expanded and existing terminal and will soon feature 14 outlets.

The signature Wollumbin café and bar will be the centrepiece of the departure lounge and features spectacular Gold Coast and New South Wales hinterland views.
