

PUBLIC NOTICE: AUGUST 10, 2022

Annual Mill & Overlay Project

Construction will begin on South Bishop Road on Monday, August 15th, from Daniels Road to Christie Lane. The anticipated construction time is two days. If all goes well, South Bishop will be reopened on the evening of August 16th. Construction crews will then migrate to Preston Road and begin construction from Cypress to Kramer Road. We anticipate two days of construction to complete the project and reopen the road. Preston should be open by the evening of August 18th; however, if there are any delays on the project, we are extending the possible construction completion date to Friday, August 19th.

We ask that all vehicles be removed from the street during the scheduled times for each project. There will be no streetside parking available during the Mill & Overlay Project. We understand construction sites can be a temporary inconvenience.

We appreciate your patience and will work toward minimizing any difficulties during construction.

Thank you,

Mike Whaley, Director of Public Works
