

CampPlus Solo XL en-suite Bathroom Pods

Our Expert Solution

6 x high-spec **CampPlus SOLO XL** pods were supplied to allow guests to add an extra bit of space, luxury and comfort to their stay, dedicated to them alone, with their own keys.

Just as it can be awkward at home when the toilet and bathroom are in one room and there are lots of people trying to use the “facilities” at the same time, the **SOLO XL** pods give guests that extra bit of convenience and space.

SOLO XL pods have two separate compartments with individual doors. Compartment one contains the WC: compartment two gives access to the shower room/utility area, which includes a deep sink for washing up and an under-counter fridge. The pods are plug and play installations: connect to mains rising water, mains sewage pipes and a suitable electricity supply. The extra fees generated generally project a payback period of 2 years...and you'd expect a lifespan of 10 years.

TESTIMONIAL

Graeme Colwill
 Owner, Wooda Farm Holiday Park

“We are looking forward to offering our guests in campervans, motorhomes, tents, touring caravans and trailer tents an added bit of luxury to their stay with their own private WC, shower, sink and washing up area.”

Name of Project

Wooda Farm Holiday Park

Location

Cornwall, UK

Project Challenge

When specific guests were booking pitches for their tents, campervans, motorhomes or touring caravans, Wooda Farm wanted to offer an upgrade option to give guests more bathroom and toilet space. Positioned adjacent to existing grass electric pitches, they aimed to allow people and extended families the option to book extra en-suite facilities and space to spread out...avoiding the awkwardness of sharing the compact facilities in their own accommodation.
