MOBILE SHOWER

Mobile shower and toilet in one simple solution

QUICK OVERVIEW

- Shower cabin, toilet w. macerator & wash basin
- Separate maintenance room for easy coupling
- Three different unit sizes from 1 - 3 persons
- XPS insulation, ventilation, radiator & LED lights
- Highest build quality and corrosion protection
- Quick and easy to set up, clean and maintain

FEATURES

The mobile shower comes in 3 different sizes with 1, 2 or 3 separate bathrooms. Each room contains a shower cabin, flushing toilet with a macerator and wash basin. Each room also includes a bench, radiator, window and electric ventilation. The ceiling is equipped with LED lights throughout providing a modern and comfortable lighting.

The maintenance room protects the power panel and connectors and makes it easy to couple the unit with external power, water and sewage. In addition, it provides a better overview which speeds up maintenance allowing users to experience fewer interruptions overall.

OUTSTANDING BUILD QUALITY

SINGLE MOLDED ROOF

All Scanvogn's trailers are built with a single molded roof. This ensures that the trailer stays waterproof under all weather conditions. The roof has a slight curve for optimal strength and to prevent rain from gathering on top. The roof has a gutter system that helps guide rain away from doors and windows.

REINFORCED EDGE JOINTS

All outer walls are cut with rabbet joints and placed so the grooves completely cover the edges of the floor. Likewise, corners are cut and glued together with rabbet joints and strengthened with anodized aluminum profiles. This maximizes structural integrity and tightness to ensure the highest quality.

EXCEPTIONAL PROTECTION

COMPLETELY GALVANIZED

We only accept the highest standards in corrosion protection. All our trailers are built on a strong hot-dipped galvanized chassis. The treatment doesn't take place until the chassis has gone through the entire mechanical process. As a result no edges, joints or drilling holes are left unprotected.

LONGER LIFE EXPECTANCY

There are other products on the market where the galvanizing takes place before the chassis has gone through the mechanical process. This increases the likelihood of corrosion and reduces life expectancy. Some of our customers have trailers that are over 20 years old without any signs of severe corrosion.

UTILIZATION & EFFICIENCY

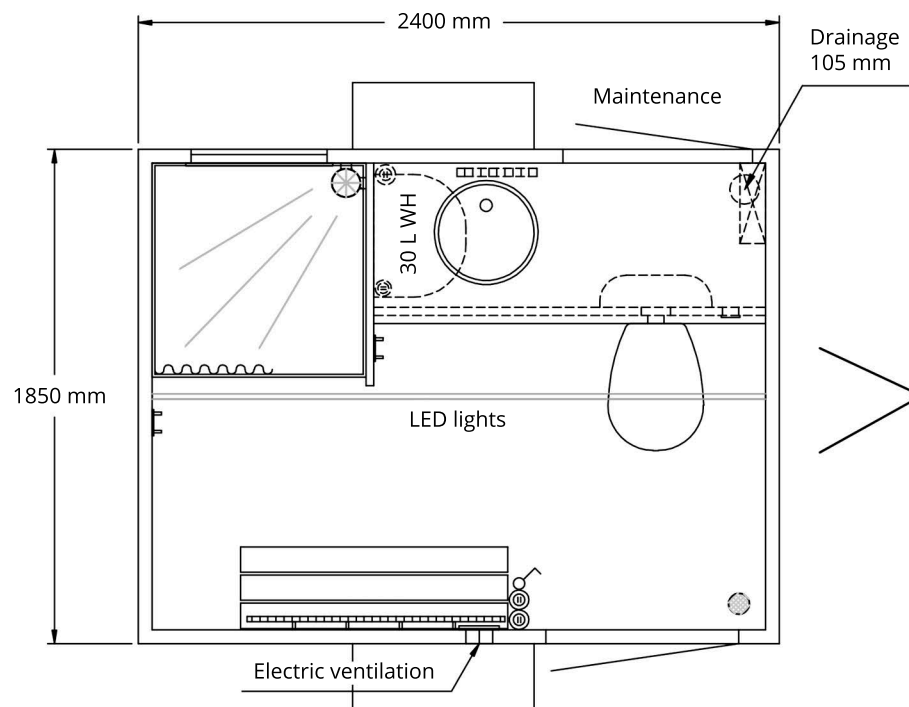

SANITATION FOR EVERY NEED

The mobile shower is often used at renovation and construction sites as well as large outdoor events. The trailer comes in 3 different sizes. The smallest model weighs less than 750 kg, thus offering people without a special driver's license access to a simple solution that covers every sanitation need.

EASY TO USE AND MAINTAIN

The trailer uses a standard 50 mm coupling and can be fully set up within a few minutes. This makes it possible to move the trailer between locations efficiently without any hassle. The unit is made of durable lightweight materials that are easy to clean, which saves time on maintenance and cleaning.

SPECS - MODEL 240

Dimensions and weight are subject to change.

Ext: 2400 x 1850 x 2700 mm
Int: 2296 x 1746 x 2100 mm
Unit weight: 600 kg
Total weight: 750 kg
Capacity: 1 person

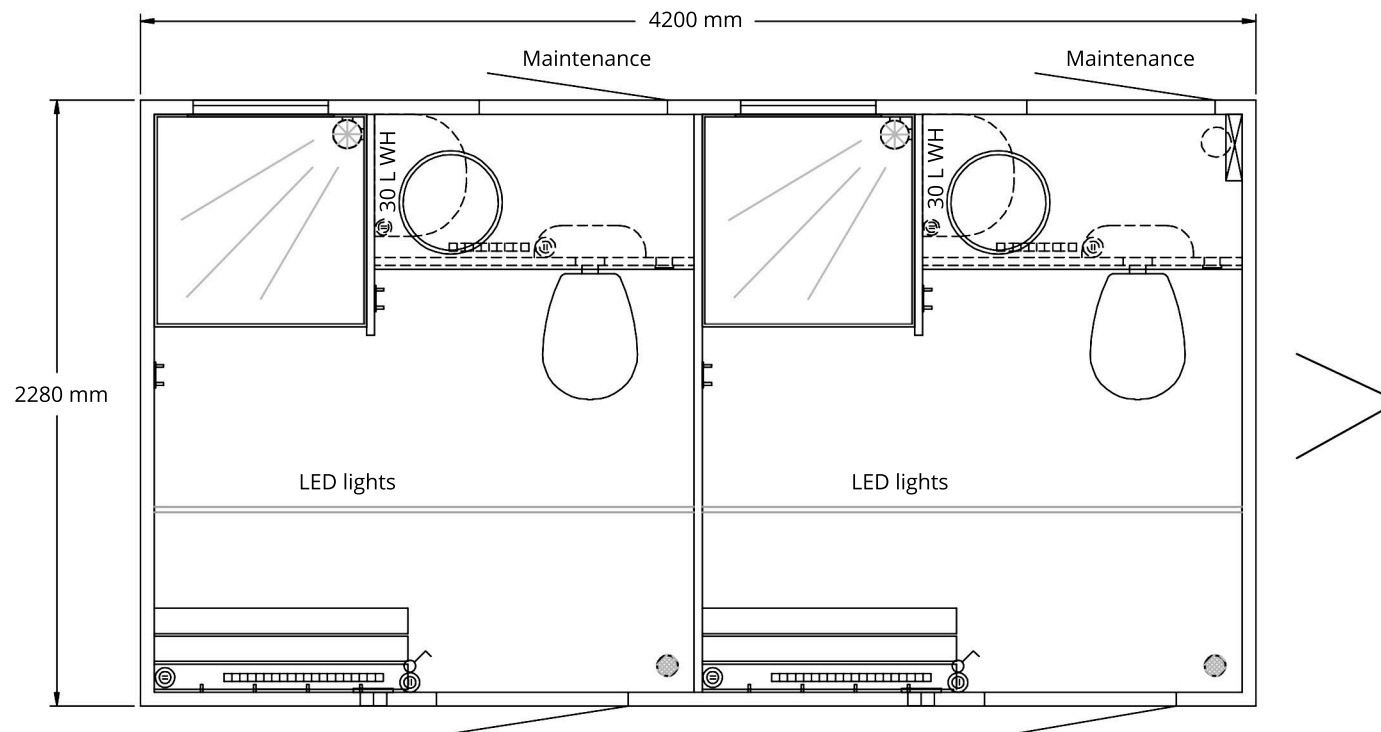

Shower cabin
Toilet with macerator
Steel wash basin
Mirror 900 x 500 mm
Bench

Maintenance room
Control panel
LED lights
Floor drainage
Flip down stair tread

Laminate countertop
Window 510 x 410 mm
4 clothes hooks
2 towel hooks
Electric ventilation

400 V - 16 A CEE inlet
230 V - 16 A CEE outlet
500 W radiator
200 W frost guard
30 L water heater

SPECS - MODEL 420

Dimensions and weight are subject to change.

Ext: 4200 x 2280 x 2700 mm
Int: 4096 x 2176 x 2100 mm
Unit weight: 950 kg
Total weight: 1300 kg
Capacity: 2 persons

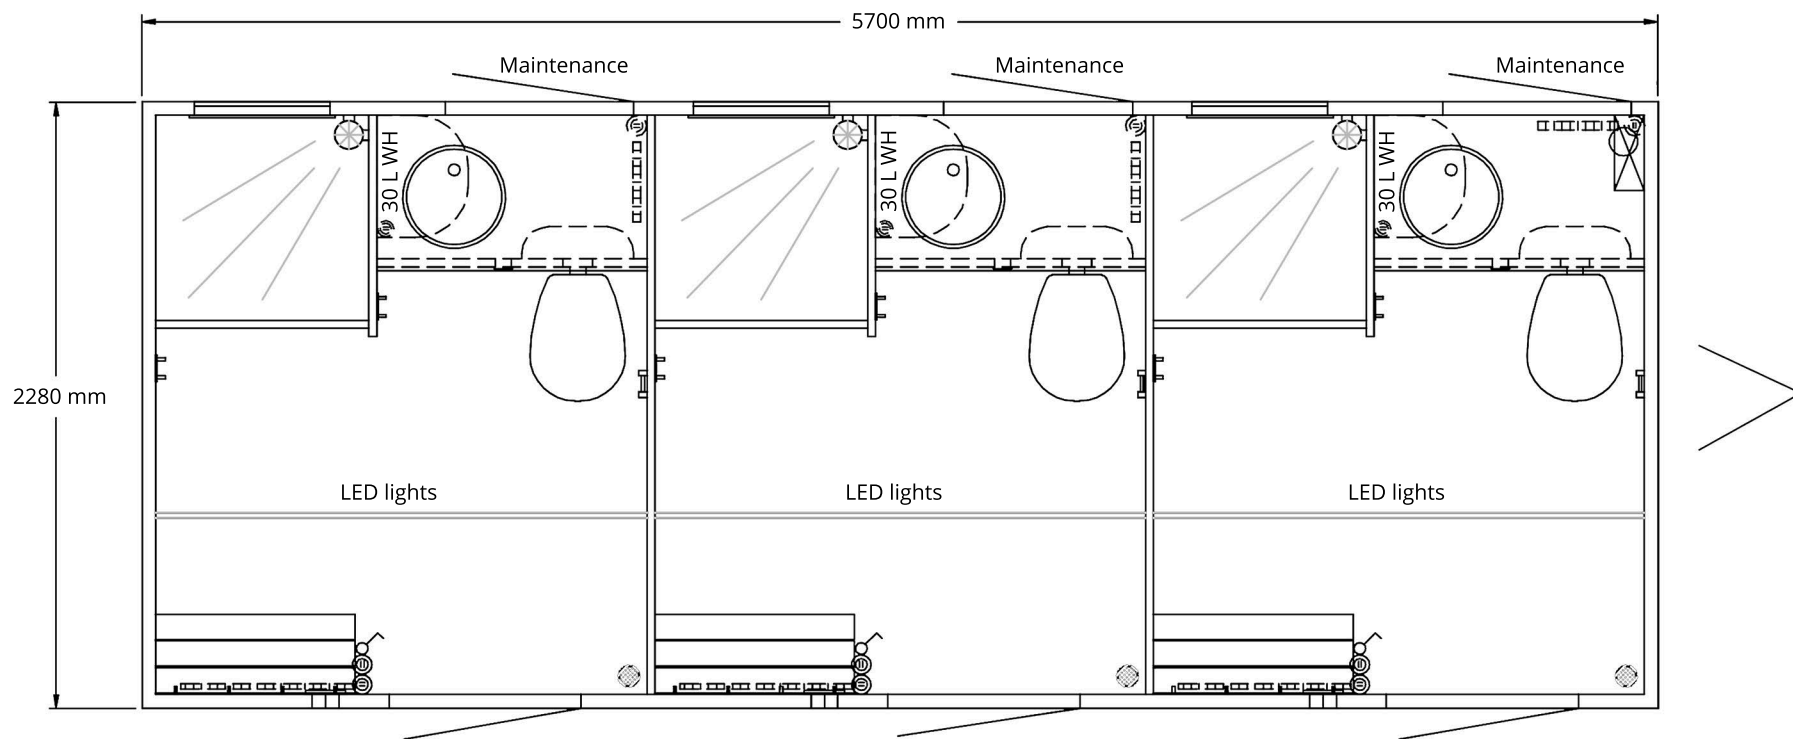

2 x shower cabin
2 x toilets with macerator
2 x steel hand basin
2 x mirrors 900 x 500 mm
2 x bench

2 x maintenance room
Control panel
LED lights
2 x floor drainage
2 x free standing stairs

2 x laminate countertop
2 x windows 510 x 410 mm
2 x 4 clothes hooks
2 x 2 towel hooks
2 x electric ventilation

400 V - 16 A CEE inlet
230 V - 16 A CEE outlet
2 x 500 W radiator
2 x 200 W frost guard
2 x 30 L water heater

SPECS - MODEL 570

Dimensions and weight are subject to change.

Ext: 5700 x 2280 x 2700 mm
 Int: 5596 x 2176 x 2100 mm
 Unit weight: 1450 kg
 Total weight: 1500 kg
 Capacity: 3 persons

3 x shower cabin
 3 x toilets with macerator
 3 x steel hand basin
 3 x mirrors 900 x 500 mm
 3 x bench

3 x maintenance room

 3 x 2 towel hooks
 3 x electric ventilation

400 V - 16 A CEE inlet
 230 V - 16 A CEE outlet
 3 x 500 W radiator
 3 x 200 W frost guard
 3 x 30 L water heater

SCANVOGN

Scanvogn is Scandinavia's leading manufacturer of mobile solutions for the construction and event industry. Our core products consist of trailers for accommodation, office, dining, sanitation, bathing, decontamination and refrigeration as well as custom solutions for organizations operating in remote areas lacking secure and sanitary facilities.

Our products are known for their high quality and comfort. They are constructed using lightweight non-organic materials offering a high degree of insulation, hygiene and durability. They are utilized in numerous parts of the world ranging from the hottest to the coldest climates.

Scanvogn is based in northern Denmark and employs 150 people in its 9000 m² factory. We produce most parts in-house which enables us to deliver highly customized trailers and parts for customers with specific requirements.

With over 20 years of development and innovation Scanvogn has the experience and competence to turn our customers' ideas into functional solutions and produce them on a large scale.
