In partnership with the New Anglia LEP, Norfolk & Suffolk Care Support and Norse, this event is designed to support the professional development of Health & Social Care teachers and careers advisers, enabling them to deliver an enhanced curriculum and well-informed choices to students.

The adult social care sector is changing, and with it the career pathways available. The implications of the Care Act 2014, ever-closer integration between health and social care, extended life expectancy and changes to the traditional delivery of social care are all having an impact.

Norfolk & Suffolk Care Support (N&SCS) is a not for profit company which supports the social care workforce by providing information, advice and guidance to care providers, disseminating funding for workforce development and promoting adult social care as a career option.

This new CPD event will include:

- **N&SCS produced DVD for schools and colleges, highlighting exciting careers in social care**
- **Better understanding of career pathways in social care and opportunity to hear from young employees**
- **Presentations from key speakers within social care from a variety of different settings**
- **Opportunity to explore work placements and apprenticeships**
- **Introduction to Bowthorpe Care Village, providing housing with care and specialist dementia care**
