

**PARK HYATT ST. KITTS, St. Kitts**

A barely-touched island in the tropically-named Banana Bay is the setting for Park Hyatt's newest resort, surrounded by some of the most golden sands and bluest waters in the Caribbean, and with 78 rooms and 48 suites you'll never feel like you're sharing paradise too much. The private island setting makes for a very secluded enclave from the world, lending some peace and tranquility to your stay, and you'll have everything you'd expect from a luxury resort to keep you happy including sun-soaked pools, top-class spa, fine dining and sports and leisure activities to suit all tastes.

The three restaurants have been designed to invoke a spirit of the history of this tiny two-island country, St. Kitts & Nevis. *The Stone Barn* is reminiscent of the stone barns used to protect the harvest in inclement weather, while the *Fisherman's Village* brings to mind those who risk life an limb to bring the fruits of the sea to your table. And the *Great House* is a modern representation of the grand plantation houses of old, a place of meeting and congregation, and this is the all-day dining venue of the resort with its own herb garden and signature *Rum Bar*. Don't miss the Afternoon Tea, an essential experience in the welcoming shadows of the Great House of any plantation.

PARK up your troubles... ..in your NEW Kitts bag.

*There's something very special about knowing you're experiencing the best, and there is something equally special in knowing you're experiencing something first. With a brand new resort just opened, Park Hyatt St. Kitts gives you both those special feelings all in one.*

The *Miraval Life in Balance Spa* offers face and body treatments as well as a yoga pavilion and opportunities for meditation and quiet contemplation, while those of a more active disposition can find golf, tennis and motorised sports nearby. The resort itself is equipped for non-motorised water sports while a specially-curated range of excursions have been designed to ensure you get the most of this wonderful part of the world. The accommodations are all light, bright and supremely comfortable, with premium suites including private pools and sundecks giving unhindered views of neighbouring Nevis. The one-off Presidential Villa features a private infinity pool, gym and games room for the pinnacle of island living.

With this new opening, Park Hyatt are aiming to set a new bar for Caribbean luxury. Why not be among the first to see exactly what all the fuss is about?
