

Simply Gorges

Upstate New York is home to an embarrassingly large number of natural wonders to behold and explore - something we are quite proud of as residents! Everyone knows places like Niagara Falls and the Finger Lakes, but did you know you can walk (or climb) along the prehistoric rocks of the oldest natural attraction in the U.S. or that you can journey along glass walkways to experience 4 waterfalls that cascade into crevices formed billions of years ago? That's right, these adventures are waiting for you and they are all Simply Gorges!

AUSABLE CHASM

Nicknamed the Grand Canyon of the Adirondacks, Ausable Chasm is the oldest natural attraction in the United States and a must see for your groups! Open year round with varying availability for activities and tours, Ausable Chasm allows your group to experience everything from a casual walk around the rim to a rappelling tour down the prehistoric rock walls. No matter what you decide to do, there is really no better way to start your day. ausablechasm.com
