

Coolant Powered

THERMAL LINER 15 FLUID WARMER

AFCPTLFW-010520

Arctic Fox — industry leader in fuel warming — has provided thousands of units and millions of kilometers preventing warmed diesel fuel to gel in cold temperatures and raising the efficiency while lowering emissions in areas where low grade fuel is prevalent.

Function

The Thermal Liner Fluid Warmer warms diesel fuel, alternative fuels and other fluids by utilizing the 15 tubes welded inside the housing. Fluid being heated is routed through the baffled shell.

Applications

Mining
Construction
Heavy Duty On-Highway
Oil and Gas

Features

Multiple uses: Alternative fuel such as Natural Gas, diesel fuel and other fluids

Simple in-liner installation allows for flexibility

Works on a variety of large diesel equipment types

Benefits

Eliminates corrosion and contamination of fuel or fluid

Reduces fuel gelling

Lowers emissions
