

Electric Powered **CALIX OIL HEATER**

CEP0H-300124

A safe and approved Calix cable system is mounted in production together with engine heaters. There is no news that most of the manufacturers, in addition to traditional engine heaters, also has electric heaters for gearboxes, pumps, axles, etc. Thanks to this, Calix has produced a number of variations of oil heaters with low surface effect designed for oils in transmissions or engines.

Function

The purpose with the oil heater is to improve the quality of the oil at low temperatures, which positively reduces wear on components such as the pump, etc.

Applications

Machinery engines

Features

Cable system mounted with engine heaters

Used for gearboxes, pumps, axles, etc.

Improves oil quality at low temperatures

Benefits

Low surface effect

Positively reduces wear on components such as pumps, etc.
