	16	26	32	40
Sealing bar width	16"	26"	32"	40"
Maximum product height	12"	12"	12"	12"
Working height	36" ± 2"	36" ± 2"	36" ± 2"	36" ± 2"
Maximum output (PPM) * <small>* depends on production dimensions and films</small>	90 ppm	80 ppm	80 ppm	70 ppm
Minimum packing dimensions (L x W x H)	3" x 2" x 2"	3" x 2" x 2"	3" x 2" x 2"	3" x 2" x 2"
Maximum packing dimensions (L x W x H) * <small>* cannot be the max dimensions for all parameters</small>	∞ x 14" x 12"	∞ x 24" x 12"	∞ x 30" x 12"	∞ x 38" x 12"
Standard film fold	flat	flat	center folded	center folded
Maximum film width	30"	50"	30"	38"
OPTIONS				
90 degree infeed pusher configuration	✓	✓	✓	✓
Infeed lug conveyor for unstable products	✓	✓	✓	✓
Infeed dual conveyor for separation (higher speed)	✓	✓	✓	✓
Change parts - forming head	✓	✓	✓	✓
Automatic adjustable side guides and width forming head (flat film needed)	✓	✓	✓	✓
Infeed vacuum conveyor for light products	✓	✓	✓	✓
Central seal	✓	✓	✓	✓
Bottom static seal	✓	✓	✓	✓
Easy film reel handling/access (flat film needed)	✓	✓	✓	✓
Double film dispenser unit (flat film needed)	✓	✓	✓	✓
Double film dispenser unit with manual film splicer (flat film needed)	✓	✓	✓	✓
Double film dispenser unit with automatic film splicer (flat film needed)	✓	✓	✓	✓
Center folder unit	✓	✓	✓	✓
Labeler integration	✓	✓	✓	✓
Leaflet feeder integration	✓	✓	✓	✓
Stainless steel upgrade	✓	✓	✓	✓

LAMBDA SERIES

The lap sealers that solidify the package.

* FFS series

Flat film forming head

Teflon coated sealing head

Continuous conveyor/sealer for FFS-V0

Fully enclosed bottom overlap seal package

The **LAMBDA series** are automatic Lap Sealers or Horizontal Form Fill Seal Wrappers. These machines use a hot knife sealing bar to provide a bottom film overlap seal on the underside of the product. This allows to omit the standard side sealer and save on film consumption. This efficient packaging method eliminates all film waste due to the use of a forming head that forms a shrink film around the product.

These machines can be used with both flat and centerfolded film. The **LAMBDA series** can be used in several industry segments, such as food, chemicals, cosmetics, detergents, wood, textile, graphic, etc.

* FFS-V0 series

“ No film waste
thanks to overlapping seal.
