Sanctuary Church Sunday Service 01/14/2024

Good morning, folks. Coming up next week is the Shot Show. Please pray for us. It is the biggest event and we're going to get together with Black Rambo and others. It's a very important event. This is where all the Abel-type Christians and Abel-type gun owners are. There's a great opportunity for many, many contacts and many, many connections that we make every year. I haven't gone in a couple of years but I'm going back this year. We can hand out CDs and books to everybody there.

Shout out to all the folks with the Second Amendment (2A) designer collection. We're probably going to have to change that pattern. One of our lawyer friends has said we may get in trouble with that pattern they way it is because it may be too to another one. We have to modify it. Right now, we are in the process of changing the fabric design. It's going to become stronger 2A, not as hidden as in this design. But it is what it is. Don't worry. Anybody who's wearing it, don't worry, you're all clear, you will not get in trouble. Anyway, we have that issue there, so we're working on a new pattern.

All right, folks. Well today we are getting into it. Today we're in Numbers chapter 33. **[Full chapter of Numbers 33 below sermon.]** The book of Numbers is after the Exodus. The people of Israel have now fled. Numbers 33 gives a whole account of that. It's like a synopsis chapter. This is as they've been moving through the wilderness in the 40-year course. And the people of Israel have been giving Moses hell in the wilderness, right? They've been rebelling. There is a Levite rebellion; they want to go back to Egypt. God will curse them, so all the first generation don't go in. They wanted to go back to Egypt; the Levite priests actually wanted to start a rebellion. So God says, fine, you're not going to make it in. And only the next generation can go into the promised land. There are conditions that God put on the promised land that unfortunately they did not fulfill and then that failure led to a lot of barbs in the eyes and thorns in the side, as the Bible says. That's exactly the wording that is in Numbers 33. Now this is a quick synopsis of all these things that happened.

Hedge of Protection

In Numbers 22 we talked about Balak and Balaam. The Israelites have been moving through the plains of Moab right before they hit the Promised Land. This is where King Balak of Moab is and the king is saying, Hey! Who are those fools walking through my territory? Go! And he calls Balaam, who is a necromancer, a spell caster. Okay, so King Balak says to Baalam, curse them, curse them! And Balaam cannot curse them. He says, I cannot curse them. Curses will not come out of my mouth. He can't spit the curses out! God makes him spit blessings out onto Israel while they're in the territory of Moab and the king of Moab is very angry about that, but they just went through that whole episode. So they're rebelling against God. The people are literally starting to try to split off and go back to Egypt. They want to go back to the Baal worship and the Hora and the Ashara forms and Ra and all these. God is, so they're doing that in the valley, but in the mountains, you have this necromancer/spell caster trying to curse them, but God is preventing Balam from cursing them. God is putting a hedge of protection around them, even though these bozos didn't know that and they're trying to go back to Egypt! God still has his hedge of protection upon the Israelites. But the first generation did not get to inherit the promised land. That is the consequence to their lack of faith and the disobedience. Their children do go into the promised land, but we run into problems with that, as the Divine Principle talks about it.

Let's get into chapter 33. Let's read. These are the journeys of the children of Israel who went forth from the land of Egypt with their armies under the hand of Moses and Aaron. And Moses wrote the goings out according to their journeys by the commandment of the Lord and these are the journeys according to their goings out. And they departed the Ramses on the first month and the fifteenth day of the first month. On the morrow after Passover and right after the final plague which is the death of all the first sons of the Egyptians and all the Egyptians are basically watching. So, they're let go. They're let go and they leave the next day after the deaths of the first born. That means the next day after Passover and the death of the firstborn. So, that's where we know they started coming out and then God says to Moses, keep track of everywhere you go.

So, this whole thing is like a catalog. Like they went here and there. I'll just give you a little tasting of that, just a little tasting. It says, And the children were removed from Ramses and pitched in Succoth. And they departed from Succoth and of God and pitched in Etham, which is on the edge of the wilderness. They go to many places. Forty years of that! Okay, it has gone on for 40 years. Boom, boom, boom, boom, all the way. Okay, they went to Dophkah, Alush, they went to Rephidim, they went to the Desert of Sinai, they went to Sinai, and then Kibroth Hattaavah. Okay, okay, you get the idea. They went to all these places. In verse 38, Aaron the priest went to Mount Hor and he died there. In the verses in the 40s, the children of Israel were coming out of the land of Egypt in the first day of the fifth month.

Moses catalogs all the places they were for 40 years, and there are studies on this. There are maps drawn about this stuff. It was a big zigzagging. We're jumping to verse 51. "Speak unto the children of Israel when ye are passed over Jordan into the land of Canaan." So now God is bringing them through the 40 years. Now they come through the plains of Moab and they're facing the promised land. Ten of the spies say no we will never make it; they'll destroy us. Two of the spies of Joshua and Caleb said yes

God will save us. Okay. What happens? Another mutiny arises! The ten spies that said no start gathering all the people and whip up the people in a frenzy and the people are now saying you will get us killed and they're doing a mutiny again. They're going to be cursed because of that, even though they're going to be able to win the battles into the promised land. Okay, so in verse 52 "Then you shall drive out all the inhabitants of the land from before you and destroy all the pictures (their idols) and destroy all their molten images and quite pluck down all their high places (their altars.)"

Those "high places" are all the altars where they're doing human sacrifices, baby killings, prostitution, sex prostitution, and temple prostitution, which is basically sex-trafficking children. This is the common power structure of the ancient world and of satanism, political satanism, and it is still here today. That's what the whole Epstein Island and all this kind of stuff is. It is the way in which Satan has taken control and how he uses those who have, let's say, gifts for evil. They are gifted in being evil. This is the problem with government and any controlled body like that because government, like George Washington said, is force. Government is forcing people to do it, killing people if you have to, stealing from them if they're going to do their taxes there, what are we going to be? If government is force, then who will rise in power? There are people who are willing to use whatever force is necessary for them to get power, right? Then what happens? Then those kinds of people get promoted. The people like in the CIA and FBI intelligence gatherers whether male or female, who are the ones that do well in that organization is whores. Right, because if you're a woman and you're beautiful, they will hire you and you will be an asset. So then you create more assets for the CIA intelligence-gathering groups, right?

Just like Maddox Cawthorn, a North Carolina representative who was on one of the shows last week. He was talking about the honey traps. He was in a bar in Texas and three Brazilian supermodels followed him around. Three of them come on to him and they're all interested in this guy. He says, I'm in a wheelchair! I know I'm good-looking but I'm not that good looking to have three Brazilian supermodels come on to me. These are not just pretty girls but ones that when they come in the room, the room stops. These are the kind of girls that get into the CIA; they get big bucks to develop assets. What does that mean? They are luring and seducing a certain target; you have sex with them and then you get video on it. You whore yourself. Then you get promoted. If you make a big asset and then you can use that video for blackmail for billions of dollars for the CIA. You get tons of multi-million-million-dollar deals. On the female side, the female whores will go up in power. You see how that works? On the male side, who are the ones that are going to be in those corrupt organizations? The ones that will go into the inner cities and sell LSD and track fentanyl to the black community, to destroy the black community's families. These kinds of people don't give a crap about anybody else; they're just for money. They are people who will go and slit other people's throats for protection of the Epstein list or whatever the case might be! The suicide gangs.

They are the suicide gang, people who are willing to do that for money and for billions of dollars they will rise in power. You get all the sociopaths over time and it takes a couple years but within two decades you have a high concentration of sociopaths and prostitutes who are all very intelligent and they've monetized their evil skills for power. Those kinds of people have gotten up in this organization. This is the nature of government. That's why government must remain small. It must always remain

contained and remain small because the very nature of government is lies, deceit, assassinations, sex trafficking to get people in blackmail rings, and to blackmail and create assets and prostitutes. All that crap is what governments do. See how this works? That's the unfortunate reality of the world. That's confirmed with these people in DC and they're now saying that this is true. These people really do run blackmail rings. This is starting to come out slowly. We know that because now we got the aliens back in the media!

Alien News is a Distraction

Aliens everywhere! Did everybody see the new alien droid jellyfish alien? There's a new 2018 video from Iraq with a jellyfish droid and it looks like it's literally from Star Wars! Okay, I'm not making anything up. It's funny. When government corruption is ready to be revealed and when the Epstein list is about to come out that is when we got the aliens coming out again! Alien invasions news are coming out again! [Plays video.] Let's look at the new footage that has come out 2018 from Iraq with this what is called a "jellyfish droid" because it looks like the one in Star Wars with the hands and the tentacles hanging down! Look at this. This is on the base. This was just released this week. It was "leaked" this week.

So that's the droid and he only was able to be captured on thermal as he turns from black to white, black to white, which means he's turning from hot to cold, hot to cold, hot to cold. He flies right by the dogs. The dogs can't see him and apparently on the base they sent out guys with NVG night vision goggles to go catch the guy. We couldn't have picked it up with phosphorus night vision so he only could be picked up by thermal. He's flying, changing colors as he turns from hot to cold, hot to cold, and then apparently, he went at the water and went straight in the water. Just as he moves in air he moves right to the water and then it comes out of the water and goes away. That is right in time to distract from the Epstein list! You understand this is from the same government that has been lying to you, been busy, selling drugs. This is as big a sex trafficking ring in the world that runs the sex blackmail rings with Masada and M16 with Epstein and the Rothschilds.

This is the same government that's telling you this is okay so of course you must believe everything it says. Right? The whole apparatus of government is controlled by psychopaths and sociopaths and people willing to do evil. Why does this happen? Is this because of the fall? No! People have free will! People have free will. Even in the kingdom of God, people will still have free will! There will still be a psychopath class; they say it's about 1% of the population, about 30% of the population will be sociopaths who go along with it. They go along with the psychopaths for money and the right price, right? They will go along with it.

There will still be that kind of people in the kingdom because the nature of free will cannot change. The people still have to choose but all of the societal factors will be keeping you away from that as much as possible. The Constitution itself restrains government from size, from having certain departments, from running central banks, from having an army, all this kind of stuff, right? It already forbids all that stuff. There are all these chains on this government, but there will be people who are psychopathic and sociopathic that will go into government, but of course there's time limits too, as in Cheon il guk, right? You can't be in office forever. There are term limits. So the psychopaths and sociopaths can still be part

of society. They can still be part of society as long as they aren't committing crimes.

But they can't serve more than the allotted term for either representative or senator. They can't stay in power and build an apparatus like was happening in the US with the vestiges after World War Two with MI6 and the Nazis. They did this with Operation Paperclip by which the CIA was formed. Is this insanity? The CIA was literally formed by the Nazis. It's so ridiculous that the intelligence-gathering apparatus at the hand in Germany after the war. The argument was that the West has to buy these people up because if we don't buy the people up, Russia will take them or China will. This was the argument. So, the West bought these Russian scientists up. These Russian scientists went to the NASA program, the Russian intelligence agencies like the Stasi. Who is the fool that brought these to make the intelligence-gathering agencies in the US.? Thanks to the Nazis we have the CIA! It's not surprising that that's why the CIA is the enemy of the people and is trying to destroy and stop a presidential election like this year. They're trying everything possible to destroy Trump this year.

Trump is a man on the cross

Trump is a man on the cross right now. He is not perfect! He's the man on the cross. And we got to pray for him! And by the way, this is who the people want. The people want him overwhelmingly. People want him. But they're saying no, we don't care what you want! It will only be what we choose! Even Vivek Ramaswamy is coming out saying you know they will do everything in their power to stop Trump and saying that he believes that Nikki Haley will be on the ticket with DeSantis as the VP. They'll push them to do everything in their power to stop this man! We'll see how that works out. By the way, Elon Musk and a couple Abel-type billionaires have now come out and are risking their lives and now getting sued and being hit by the deep state etc with all these lawsuits etc. But they're providing a huge service to humanity. Elon Musk is more and more proving himself that what he is saying he will do. He wants to stand on the Patriot side. You don't go this far and challenge the Bilderberg group and the Davos group and the Rothschilds this hard and get back into their club! Okay, you don't get to do that. Out of all the platforms, Musk's is the only platform that allows for differing views. He freed Alex Jones; he allows people to have different views and use broadcasting groups to broadcast their stuff immediately on Twitter. So then what happens?

The whole world then can see through Twitter the opposite side of the mainstream media: CNN, MSNBC, ABC, and all these propagandist channels. So now they're not only saying one thing from the government channels in America, they now can see Alex Jones and Info wars. They can watch Steven Crowder; they can watch this and that. All these guys have been banned off other platforms, right? Twitter is the only place I can do that. It's a multi-billion-dollar company.

Twitter has grown stupendously ever since Elon Musk has taken over. The advertisers have started pulling out, like Disney and these kinds of bozos, right? Disney has been trying to groom kids and make pedophilia cults for how many decades? Elon at least is standing up. Elon and Trump and Tucker Carlson (who now has his own Tucker Carlson Network, TCN.) Go sign up for TCN. It's amazing. Tucker Carlson is the most popular journalist in the entire Western world. He had the highest numbers at Fox and Fox fired him. They didn't care about the numbers. They wanted control. But Tucker is doing great interviews. Tucker has a whole bunch of great interviews he's doing. And, of course, he's

also on that list. He's fighting hard. You have these people that are supporting Trump because all the stats show that the people want Trump because they keep attacking him and indicting him and trying to throw him in prison and trying to throw him in a gulag and assassinate him. These things are coming. False flags are coming to stop Trump from being on the ballot. They're doing all these lawsuits and trying to take Trump off the ballot and all this kind of ridiculous nonsense. But all this stuff is coming down the pipeline even though the people want Trump. They don't care! They are saying, no! We get to decide. That's not a democracy. That's not a republic. That is totalitarianism.

As in the days of Moses

This is a serious time for America. It is a very serious time, just like at the time of Moses. This is a serious time. The Israelites entered the land of Canaan and God gave specific instructions that once they went into the land of Canaan, they had to chase out all the inhabitants. You can't keep the cute girls to marry! That's what the problem is. It goes back to the pee-pee problem, right? These young bums, man, they can't control their wee-wee and they're freaking. They want to marry the hot chicks! And then they screw it up because those girls bring in all that evil culture. They bring in the worship of Asherah. They bring in the worship of Baal. They were into all this stuff. That's what happened with Solomon: King Solomon's wives! Solomon brought all these weird wives from different places who were worshiping different gods. Then they become powerful through the power of sex. Solomon and David start bending towards those gods just to make their girl happy or one of the girls happy and that doesn't make God happy. Okay. Let the whole kingdom go because Solomon's supposed to be the priest. Once you start bending to those evil things then it opens doors to those intelligentsia. Oh yes we got a hole. We got a hole. You see. Now they can get in. Set up the: blackmail ring. Set up the sex trafficking rings. They can use this particular queen that Solomon has brought in. Evil will use her as the outlet. She's got Solomon's heart. You see how that works? Then we'll set up the blackmail ring around her. We'll have her as the head, as one of the leaders. They will set her up and give her that support group and create that blackmail ring around her. Any of the girls that challenges that will kill them off using the blackmail ring. The queen will be so personally invested in that she'll like the blackmail ring. That is what happened to Han Hak Ja and the coterie that developed around her to exploit her.

That's what the video "Dear Father" is about. Did you like the video? We put it on the Korean server with Korean subtitles. So all our folks understand it very quickly but you can see it in that one too. Same thing, right? There was a whole coterie of people that said, oh we got to open it, we got to open it with Han Hak Ja. She wants to worship herself, good! We want her to worship herself; we can use her to steal money. Then a coterie was built, a blackmail ring was built around her, right? A corrupt ring was built around her. And they banked on her; they actually had to put the casino money on her so to speak. They had a bet on black, so to speak, bet on red, whatever the case may be. They made a bet that she would betray father and they were right. They were right. She did betray father for money and power but of course it wouldn't last long. They bragged that they had 200 years of money and billions to play with. But within a short ten years, boom! Father has exploded it all! That will leave them nothing. They can't extract anything in Japan and now they have to actually make public financial reports to the Japanese public. How is that possible to have a macro-cosmic and micro-cosmic

judgment? How the heck is that possible if Father's not on the throne? How is that possible? If our Father is burning in hell, like the Christians say, then why does his heir and successor and the Cain and Abel prophecies come true? And just to remind all the Christians who say Father is burning in hell and the Jews who say Jesus is burning in feces: you're not that different than the Pharisees. The Pharisees said the same thing about Jesus. The Talmud to this day says Jesus is boiling in feces.

That's not that different from the Christians that say Moon is burning in hell. Not that different. It's the same old spirit. Right? But if Father were boiling in hell, how did all these prophecies come true? How did they come true? How did that particular organization revolt against him? In fact, if he were the Antichrist, then if Hak Ja Han betrayed him, she should be rewarded by God. Instead, she was judged. She was judged by God.

The prophecy of the Jerusalem temple destroyed and the current time

In the early Christian church, the early period was when they saw the Jerusalem temple fall in 70 AD. This was about 40 years after Jesus Christ had been crucified and killed. Forty years, about 40 years to 37 years. The point is that about 40 years pass after the crucifixion and then the Jerusalem temple falls. The early Christians say, look at that! Christ prophesied that would happen 40 years before! Christians use that as a testament that Christ is on the throne, as proof. You understand, as an apologetic, that's literally a proof! It's a proof that Christ was on the throne because of the fact that his prophecy came true. Now it's the same thing but ours is even closer. It's not even within 40 years; it's within ten years but actually within seven, the first seven-year course, then the worldwide bio-plague began to happen. Worldwide disease started to happen. Remember that was the seventh year going on the eighth year so it literally happened within the first seven-year course. Boom! And then the Father gave us a little time to prepare, but then from the eighth year, boom! Havoc for the whole freaking world. Havoc! The European nations started falling, the economy started blowing up because of that freaking bio-plague from China. People dying suddenly! Collapse! The big pharmaceutical companies! Pharmaceuticals. *Pharmakeia* in the Bible is the word for sorcery. So the *pharmakeia* was used and that is basically sorcery. This mRNA gene therapy is not a vaccine. That went in to manipulate all the people's genetics, spike protein, reproduction, all this kind of stuff. And of course, this has ended in massive death. Myocarditis up to 80 million. Eighty million people have been killed by pharmaceuticals or sorcery in the last freaking three or four years! This is unprecedented! Totalitarianism, we saw that, okay? We had world level events that had never happened in all of human history. Black plague was bad, but it never covered the whole earth! It killed one-third of Europe but not the whole world! Corona covered the whole world and the whole world was under lockdown by the governments all working in concert as a world government, which people said didn't exist but now they realize it exists! The whole world got locked up. The whole world economy got smashed up except for China. The whole world got billions of gene therapy *pharmakeia*, a sorcery. Eighty million have been killed. Eighty million dead.

You're going to kill Grandma!

You remember when we were warning people: don't take the shot! We said we're not going to wear a mask and we're telling all the people we are not going to inject with the *pharmakeia*, the sorcery. We put our faith in Christ, not in sorcery, and praise the Lord! You remember how much slack we got for

that. Everybody's saying those of us who didn't get the vax or wear the mask were going to kill everyone. Everybody's going to die! If you didn't get the Vax then all the people said, oh you're trying to kill Grandma! Remember the shaming over this? Remember the ostracization, the isolation. Remember all your liberal relatives crying on the phone that you're in a cult and you've been captured by radical extremists! You are the one in the cult if you are the one blindly following! You are the one putting your life and limb at risk under *pharmakeia* and sorcery.

That vax was never proven; it's never been approved by any major drug administration in the world, including America! By the way, even the corrupt FDA did not approve it. That shows you how bad it is. It shows you how bad that even a corrupt FDA bought up by Bill Gates never even approved mRNA. Can you believe this? Give me a break! And now all of a sudden you wonder. That was a big, big problem with Trump. Trump was pushing it so Trump has to now repent for that terrible sin. He started warming up to repenting about it. I've seen his words recently; he's definitely realizing that people are pissed about that shot because 80 million have died.

You see the whole world collapsing. Just as we said there is going to be world-level judgment and Han Hak Ja will be judged. Oh my gosh. We didn't have to wait 40 years like the early Christians did. Wait. In 40 years, some of you all will be in your hundreds or in the spirit world, watching from spirit world TV, okay. It's called SWTV! Spirit world TV. That's a long time to be mocked but it didn't go seven years and started going crazy. And then of course now ten years to eleven years in, it is undeniable that world devastation, the world war and all this escalating, but now that exact organization has been missile guided exploded, boom! The whole freaking government of Japan has shut them down! How can you explain that? Did I do that? Can I do that? Did I call the government? I guess I called them and all this happened. I called them all because apparently, I have the Emperor in my back pocket. Apparently, I guess the Emperor is in my back pocket!

No, only God can do that, amen? Only God and only if Father's on a throne will that particular thing happen. Not all the world level stuff, but that particular judgment of the particular heretic you see and a particular cosmic level betrayal of the True Parents, the True Mother position. That particular thing will be exploded and look what happened? It has been exploded on the people just like in the in the beginning in the early Christian era. Remember the Christians were also called cannibals. Early accusers said you're Jesus you're Messiah! You're eating the flesh! You're eating his flesh and drinking his blood, you disgusting cannibals. And by the way, he's burning in feces. So, when the Christians say Moon is burning in hell, you sound like a Pharisee. That's what they said to Jesus and look at the prophecies that have come true! In the same way, the Christians say look how the temple has fallen in 74AD to 40 years! That's a long time in people living their lives but in history it is not long at all. They had to wait 40 years to see the temple fall. Then they said, look, look, Jesus told us this 40 years ago! And then of course they cursed the early Christians.

So, the Christians use that as evidence that Jesus Christ was not boiling in feces. In fact, he was sitting on the throne, at the right hand of God. Amen. They use that as evidence. Hallelujah. Hallelujah. And in the same way the Christians say Father Moon is burning in feces, they don't say feces, but he's burning in hell, hellfire. They call him TOSH, "taking others straight to hell." That's what they say, just like the

Pharisees sent away Jesus. But if he was taking people to hell, then why does a prophecy come true of his lineage and blood lineage and his line? How do those prophecies come true? In fact, they should be opposite. Are you with me, folks? And just like when we saw the temple fall, we could say Jesus is on the throne. When we saw the worldwide macrocosm, we could say Father is on the throne, and when we see the Family Fraud being exploded by an entire government, then we say, hallelujah, thank you. Father, you are on the throne indeed, and we praise you, and we give you glory, we worship you. Hallelujah. Thank you, Father. See how that works? It becomes evidence, because this is something we don't have control over. Nobody on the earth has control over these kinds of events. Right? Only God has control over that. And it shows that Father is the substantial body of God. He is God on the throne. So, he wills it. He's patient. I mean, he'll wait. He's patient. But there is a line. And once you cross the line, and then he decides, it's going to be. Things will change rapidly, which of course we saw happen.

The Israelites should have gone into Canaan and chased out the demons

It's the same way with the Israelites, right? They were supposed to go into Canaan. It was a cleanup job to chase out all the demons. Don't get married to the pretty girls! Kick them all out! There's a problem, right? This is crazy. Women think if you're pretty, you've got it made. They say in Korea if you're a beautiful woman it's like winning the lottery! It is better than passing the law exam, the bar exam three times. Passing the bar is a hard thing! It is a rare thing. But if you're a beautiful woman, it's like passing the bar exam three times. If you're a beautiful woman it means you hit the lottery. That's what it means because now that means you get to do whatever you want and all the men will be chasing those eggs and trying to get you. Beauty is not rare. There are beautiful chicks in every race, every town, and every nation. Beauty is not rare. It's not a rare thing. It's not as rare as Christ or something like that or a really honorable, good male leader. That's very rare! A pretty girl is very common in terms of population. In comparison with the other girls in town obviously she has all these benefits because she's pretty. But, generally speaking, in humanity pretty girls are common; they're not that rare. So, when the people of Israel go in and conquer Canaan, can you think the women are all going to be butt ugly? There's going to be some cuties in there, right. So now the guys want to marry them! Well, you know they're going to join our religion! But God said in this particular case, you got to kick them all out. You have to drive them out. You have to just kick them out of the land. He didn't actually say you have to destroy them all, like the Amalekites, for example. But you have to drive them out!

Did they do that? No. We know that because even after they entered the promised land, there are all sorts of Canaanite issues that they have to deal with during the period, even in Canaan. So, we know they didn't drive them all out just like God said because those people held on to their traditions and cultures and those cultures were diametrically opposed to God. It's like trying to live in a place where a harlot of Babylon theology is and God the Father and that doesn't work. It doesn't work; it's incompatible. It can't coexist. Because in the harlot of Babylon theology she is standing on top of God! Which doesn't work. It can't work. And that's why it collapsed. The harlot is standing. That is why it is so deadly fast collapsing!

Any capable males will never, never contribute to that. Honestly speaking, they will never contribute to that. All right. Capable males want to be impressed by and they want to be like their male leader. They

want to be impressed with him. They want to be like him and to see him as a role model. Unfortunately, instead we see a treasonous selfish grandma who just kicked away her own children to steal money. That is not something they will pay into. You see how that doesn't work over time? It doesn't work. That's why that money and those assets have been depleted so quickly. That's all they got. Nobody else is pouring in. Right. There's no future. And of course, no new people are coming in, as well. Out of all the different groups, we're the only group with new people coming in.

We're still in the second generation so we still have a lot of cult stigmatization. This is why I think God, Father, pushed me to do the raps and all, the dance and this cultural stuff. They say I'm a cult leader, but we just play with it and we just laugh at it and we just kind of hit them with this entertainment. As if we're just, hey, whatever. Say what you want. It diffuses that attack very heavily. Instead of me trying to get to them by saying, here's my riposte and theological defense of why I'm not a cult or weirdo, okay? Nobody will listen to that. People have a seven second attention span! Intellectuals may listen to that if they're Abel-type. Most of them are not Abel-type. So, there will be some that will listen to that. But you do cultural stuff and you hit them back with cultural slaps, okay, that goes a lot further. That can drive a lot further, right? For example, even our patriot friends love the Cult Leader music video! Because that one clearly shows we're mocking them and the next one too; even the Matrix that's coming out next and the Extremist one that's coming out next. This one is phenomenal. Our production team is getting really good. We were blown away when we saw little clips of it this week as the boys have been working. We're not doing it yet but it is coming out soon. It's unbelievable! Shout out to all the young people that were in it as well. We smack in the back with these cultural ripostes that also have a spiritual methodological message inside but we're smacking them culturally because that's what works. They're trying to soil our reputation and say we're a cult, that comes from culture. They are trying to soil the culture against us so what we are doing is we are hitting them back with what they deem as culture. I'm saying we're not just making theological arguments; we're also dancing in their face. We're also making fun of them. I'm wearing diamond teeth in the video on purpose, just to mock them. Go ahead! Throw all you have. I'll put on diamond teeth, and of course they're fake from eBay. Hey, I'll be the villain. Go ahead and hate on me. It doesn't matter because in the end Cheon il Gk will win and you commies will lose! You will lose: you lose!

The Cheon Il Guk constitution was released into the atmosphere so that's already been done. It's just about time. It's coming: it's coming. That's why it is so insane we are really a small little thing out the middle of the Smoky Mountains? Why are all the freaking world media trying to chase after me? It doesn't make any sense. I'm out here canoeing with the bears in the freaking Smoky Mountains. What are the whole worldwide media chasing after me for? They are deathly afraid. We had ITV here and they will be playing their episode next week or in a couple weeks. It's playing this week in Britain; that's the one we're in with Laura Trump and Rudy Giuliani.

I am one of the most censored and banned people in the entire world. I am probably one of the biggest called cult leaders in the world because of who father was, right? And we got all this worldwide media coming to do these documentaries on us and we say our numbers are not large. We have more than 12 but we're not how they make it look to Europe. The whole America is the Moonies! We got like Rudy Giuliani and Laura Trump and Pastor Moon with the bullet crown. Okay, they're like, man, that cult

really grew fast! And then we got the entire German media coming in April. We got the Vice World coming in for God's Day. Why are they chasing us around like crazy like this?

There, of course, Satan is trying to paint the American gun owners as radical and they never saw any pastor running around with a bullet crown! I mean you thought this was controversial! Then I started doing a rap and you thought that was the end of it. Then I started to see Wok Gangsta dancing. He said, I thought that was it. Damn, he got too many things. Pulling out the new Chuckles and doing a nunchucks training and all that. And he's from Harvard, are you kidding me? So, we're hitting them in a non-traditional way. They hit all of us with the villain, the cult attacks, all of that. Well, we hit you back, but we hit you back in different ways. We're not only arguing with you theologically and rhetorically, we'll also hit you back culturally, all right? And we get all, and by the way, I checked the Reels numbers, and all the C walk dance, the Crip Walk dance, those by far get the most views. The first one got like 15,000 views in a couple days and remember I'm heavily censored and shadow banned and dethrottled. Even if you are looking for our ministry and put in a lot of our ministry name, you can't even get to it unless you type the whole thing out and then even if you try to follow us you get a message of warning that this group has tried to post much false information. So, are you sure you want to you follow them? Understand? We are heavily shadow banned. Obviously, I can't speak on Instagram really. I can't post any sermons because they give me warnings if I post any service stuff. So, the raps have been able to go out past the all doors at this moment but then to see what crip dancing that has been able to pass through way further in that interest huh in that energy and the Lord said be fishers of men so we are fishing! We've got a lot of people cutting our lines but we are still casting, amen. We've got a lot of scuba fools in the water cutting our lines but we're hitting back. We're hitting back culturally.

Cultural remnants

God said chase out those people. Why? Because they will have cultural remnants that will turn the people away from God. You see how powerful culture is? That's why Father invested so much in culture. One of the biggest things even our brother King Robert Morton wrote in his autobiography was about how father invested the most in media out of any religious leader. Isn't that incredible? Why? Media also is part of the culture building. Right? It's part of culture building. Media narratives become very ingrained in culture. Of course, then what else become ingrained in culture? Young people are into Hollywood, entertainment, music, dance, all this kind of stuff. These kinds of things go in, but of course, media is the biggest in terms of a society's views. Right? So these are all cultural elements that the father fought back with, right? So you have this in the Old Testament here, you have the Numbers 33, God says, go in there and you have to eradicate, you have to take out their culture. And you have to supplant it with my culture. And of course, the Divine Principle shows that they were supposed to first erect the temple for the preparation of the Messiah on the national level.

They were supposed to prepare the temple, right? Because remember in the wilderness period the tabernacle was in the middle of their whole encampment and all the tribes were lined in relation to it. Remember this. The tabernacle was in the middle and that was a sign, symbolic sign by God to the people that the center of your life and of your safety and your hedge will be me. That was God

speaking. That's why you put the tabernacle in the middle of that cross. You know that they would move it through the wilderness and this encampment was shaped in the shape of a cross with the twelve tribes. Okay and so they're supposed to get rid of this old culture and supplant it with a new culture but what was it that was the center of their culture while they're in the wilderness? Of course it was the tabernacle. It was the Holy of Holies. It was the presence of God, amen. So, when they got to Canaan, what should they have put at the center of their culture? They should have put the tabernacle there. They should have put the Holy of Holies. They should have erected the proper temple. And that's what they should have done. They didn't. And they got sidetracked by what? The hot girls.

These pretty girls ruin everything, don't they? Unless they're godly. Like the Queen, she's beautiful but she's godly. Okay, so they got hung up with the girls and as they married the women there, they couldn't, they were heart strung tied, so now they can't kick them out you see how that works. And then they start having babies and then they really can't throw them out. and then that culture starts eating away at God's culture. The thing that eats away at God's culture is the weapons of Satan.

The New Testament church says, well you know we don't fight: we don't go in and conquer the land like the Old Testament God commanded. We have the spirit of the kingdom of the church! We are the kingdom of God and His church! God calls one another sons. And then the New Testament church says, our weapons of war are prayer! Okay, well that was also a weapon of war of the Old Testament as well. Right? But reading the Bible and prayer is not enough. Look at what has happened to the West that was reading the Bible and had prayer. It got destroyed from within, culturally. It got destroyed. It got infiltrated and now you have the gay churches. Rainbow churches spring up everywhere. That's a new Protestant. Are you freaking kidding me? I mean are you kidding me? Total abominable degradation of the church because you can't just do it with prayer and reading the Bible! The Bible has an entire cultural realm and God has a culture. Are you with me folks?

God is not supposed to be read at and then prayed to. Our lives are supposed to conform to his culture, right? And that's why the cultural realm is so important. So even strong Christianity in America has been eaten away culturally by the media that is political satanist, one of the arms of the apparatus media right. The other apparatus is entertainment, sexual degradation, and normalizing that and legitimizing that. They are hyper-sexualizing kids and normalizing it to the whole culture and now pushing for pedophilia. First it was gay marriage and they will not stop there. All the way to transgender. Cut your genitals off; cut your breasts off! And now let the pedophiles rape children! That's where you end because all you did was read your Bible and prayed. You did not get involved in the cultural battle and that's why you got taken over.

There were the Rothschilds who paid for and pushed for the Scofield Bible and pushed the rapture heresy and the pre-trib heresy that you are going to be whisked away! You will not know tribulations. You are going to be whisked away! The church will be taken up, which means it should not be political. It should be not involved in the cultural fight. It should not be involved in the cultural fight. But because Christianity has not been involved in the cultural fight and the weak-kneed Christians have not been on the street preaching and on the street fighting and speaking love and truth to the sinners. Right? That's what you've been doing. Christianity used to do that but they stopped doing that and now they

just want to play nice.

Christianity has gotten taken over. you got Lil Nas X in his video being raped and being rammed up the boot hole with the freaking devil and now he's saying he is going to go to Liberty University and get a master's degree in Bible studies. By the way, he was accepted to Liberty University. He's a gay demon. There are only two rap artists in the Christian realm Tyson James and Bryson Gray. Those two are hardcore. Tyson Gray wrote a song called Lil Nas X gay demon and all the Christians are up in arms! You are so unloving! That's not how Jesus taught us to love his enemy. And it's so unloving! And Bryson Gray says no! Jesus is love and wrath. And I'm not going to say, because y'all have been sitting so weak towards sin, that's why the whole damn nation has gone to hell in a hand basket, and the whole world. And I'm sick of it, and we're not going to be lukewarm, weak-kneed Christian political Christians like you. And so he went out hard. God bless him. Good job, Bryson Gray, Tyson James. Love those two. They did a phenomenal job calling that demon out and he has a whole new video where he's mocking. He put himself as Jesus. He's eating the Eucharist, eating it, and drinking wine, eating it, and drinking wine. Just endlessly getting drunk and who's angrier! The Muslims are angrier than the Christians!

You pathetic, pathetic Christians. These Christians are so pathetic it's a joke. But they have refused to fight the cultural war, right? Because cultural war has to be fought, right? Our way in the New Testament Church says we have the weapons of spiritual warfare and prayer and reading the word. Okay, that's good. That's a good start, but then it's supposed to manifest on the physical! It's supposed to manifest in culture. And this is of course the stronger masculine Christian coming up. We like kingdom music and these guys and it's really coming from the hip Christian rap scene, not the hip-hop scene if I was he's kind of very weak, neocon, very weak. But the Christian rap scene, those guys are much stronger. Like their former ex-felons, like the guy who runs Kingdom Music, he's the... What's that? What's that? What's that, brothers? I can't remember his name. But anyways, he's an ex-felon. He was in gangs, but he is... He's hard. He's hard, but he's full of love. He is Bryann T. And he's masculine! He's like Bryce Gray, Tyce James, and that brother from Kingdom Music and what's the name of that Hispanic brother. They're tough and I like them. They are setting a new tone for the new masculine Christianity that's coming up because the young bloods are all sick and tired of this weak-kneed political pew sitting and weak-kneed Christianity which is getting your country wrecked and killed. We're dying because of it. He probably says we are a cult but that's ok. He just doesn't know Father yet, that's all. But he's very strong, they come out very strong. They're loving, they're loving, see? That's good, they're loving, but they're also very strong against evil, which is good, that's very good. That is the Abel-type of Christianity.

And isn't it interesting that that's coming really from the Christian rap scene, not from the Christian rock scene, because rap in itself is very masculine. It comes from the gangs so rap in its nature is very masculine. It is interesting that it is coming from that genre of Christianity. They're the only ones that are really outspoken against the LGBT rainbow cult, anus cult, and all this kind of stuff. So, they can't say well the Old Testament they had weapons of war but we have the church. Jesus won the battle for us and he brought the kingdom of God and the kingdom of God is in our hearts so we have prayer and we have the word. Okay that's a good start but it's not enough. And that's why Jesus said he had to

come back. He had to come back in the complete testament. We are way more than we had before. We still have prayer and we still have the word. Amen. But then we have so much more. We have the entire Constitution. We have the entire culture of the Rod of Iron Kingdom. We have training. We have adventuring. We have the weapons of spiritual warfare and cultural warfare, which is what? The blessing covenant of marriage, and having a great marriage. That is also a nuclear bomb against Satan! When your blessed family is strong and they have great absolute sex and romance and powerful unity there, that's a weapon! That's a bomb exploding in Satan's culture and then they have good relationship with their children too because they're doing the one-on-one training. They're teaching their children the ways of God. They're teaching the Constitution and when they get older, they're plugging into the Holy Spirit University and get in the parenting training class so they don't abuse their children. They do the parenting stuff right and this is cultural stuff. Every time we have a successful family with parents that have good relationship with their children, that's another atomic bomb blown off in the devil's camp!

Pilgrims of pureness

So, we have so many weapons of war. We have so many but not just prayer and reading the Bible. We have so many more manifested weapons. We have the covenant that was supposed to be given to Adam and Eve in the garden. We have it! it. Adam and Eve were supposed to be given it and we got it oh my gosh that is a nuclear bomb of devastation. That's why in Cheon il Guk culture we have to root for one another, amen. The blessed families, we don't want to be jealous of one another. Oh, I wish my husband was like that! Oh, he, her, my girlfriend, my girlfriend's man, he always does that, my man never does. Don't be doing that, you crazy! You got to root for one another, right? Don't be envious and jealous and breaking commandments. No, but you're rooting for one another. Right, it's a culture of rooting for one another. So with the blessed sermons young people are training and they're going on their spousal date training and they're praying and giving thanksgiving and praying but all the good we're rooting. Whether we're sending them clapping emojis, we're sending them heart emojis, we're saying good job! We root for them because every time there's victory in the covenant of the blessing what happens? Boom! Bombs blow up in Satan's kingdom! The free sex weapon is being blown up. By the way, if you have a good relationship with your wife you have more sex than any freaking single running around there with free sex trying to bang all these chicks. You have way more sex and way more happy sex and clean and pure and it's completely disease-free both spiritually, mentally. and physically. Amen! Give glory to God. Come on, y'all. What are you, pilgrims? Give glory to God. Heck yeah. Heck yeah. Pilgrims of pureness. We got the real pure. We got the real pureness.

And then of course we have the strong family in the vertical way as well with strong grandpa, grandma, mommy, daddy, and children. You have a strong three kingship too. Boom! Another explosion! Go ahead and pull up the new chucky video. I had one of my granddaughters in my new chuck video. I'm a granddaddy! **[Video plays.]** She sees grandpappy and she is going, wow! She loves it. And all of our picture prints and writings, this is so beautiful. This is amazing. A lot of the guys, they're in their 60s and in their 70s. They don't have grandchildren. They don't have grandchildren. I'm in my mid-40s. I have eight grandchildren. Mid-40s. You understand, that's very normal. In fact in all human history that was normal! I'm the normal one! Everybody else is weird. Look how happy the baby is. She's so happy.

She's having so much fun watching grandpa. Look at grandpa being a ninja! You run around like crazy for your little grandbaby. One of the sisters wrote on the page: "babysitting skill level: master."

First times sear into our memory

Why does the Western world look at this and say, wow this is so amazing. Man, I wish we had that! Look, if you don't have it, you don't have it. The Western world has given away your youth. You sold your youth to careers and money and professors and jobs. This is what you've done. You've given your youth, which you never get back and will only have it once. You have sold your youth for money; you didn't put that youth in getting married and investing in your future life together. You didn't invest in putting that youth into children so that while you're young enough you could do all the activities together with them and help them unlock their epigenetics. There's research that shows first times sear into your memory. That's why virginity is so important. This is true the first time you have sex but it's not only virginity. Anytime you do a first-time thing it gets seared into your memory. So, the first time you submitted to somebody in jujitsu, the first time you got on the mat, you felt a lot of fear. The first time you went scuba diving and the first time you went parachuting. Do you see what I am saying? The first time you went on a trip with your husband on a bike and you didn't die! Because you remember. These first times are very important.

And if you're older and as you invested your youth, which you only get once, you never get back. You put that youth in other things other than relationships. By the way, there's studies on old age centennials. Centennials are people who live to be a hundred years old, right? So, there's studies on people that live to be one hundred years old. There's a lot of factors. Some have very weird lifestyles like some of them smoke cigars and so they say a lot of it is genetic. But if things are not genetic, they are dealing with what they call the four horsemen of health. The four horsemen of health or death are cancer, cardiovascular disease, diabetes, and Alzheimer's. Those are the four horsemen of death in terms of health. So they find that for people who live longer, those horsemen still come but they come later. They come in the 80s, 90s, 100s. You see what I'm saying? Now, people who don't live the lifestyle of those older folks, and four horsemen of Alzheimer's, cancer, diabetes, and heart disease comes when? It starts in the 50s. It comes much earlier. And then what did they study? They studied diet and food and they found that you need a lot more protein than normal. People who live very long actually eat a gram of protein per pound of body weight. Did you know that? That's a lot of protein. They also do two different types of exercises: zone two and zone five types exercise. Zone two is like cardiovascular so they're out there making their heart go like marathon training. This is like where I sustain cardiovascular health, and then to do zone 5 training, which is sprinting, something sprinting related. They had this old guy that they were doing a study on, and he was doing pull-ups every day. He was a 100-year-old man doing pull-ups on a pull-up bar. What is that? That's zone 5 exercise, right? Because that's muscular exercise. After 40 years old, you really can't pack on muscle weight but you can maintain it and they found the people who lived long into the 90s and 100s all do some type of muscular training too. I saw that before with True Father. Father did every day over one hundred squats. Every day in the morning this was way into his 90s, especially right before the helicopter accident. So, there's a lot of muscular training you're doing. That's why the martial art training is so good because it's so physical. And it makes you, it gets you in a habit of doing a lot of muscular

training and just keeping the body training all the time. That's why my kids say, I don't know how Appa, Appa is about 40 years old. He's 40 years old but he's got so much energy. I always want to train, train, train, train. But I've been doing it for so many freaking decades. It's part of my lifestyle. I cannot not train, okay? Even if my whole body is paralyzed, I will still be training in the mind. How many decades of 10,000 plus hours meditation mind training I've done too, so it doesn't matter. I'll always be training.

So what do they find with the centennials? All this. They do zone 2, zone 5 training, exercise, and they eat a lot of protein. But guess what was probably the biggest factor they think? The biggest factor? It was relationships. Good relationships in marriage and family. So, they found, to back that up, they did studies on people that were in their 50s. In the 50s, if those people, that couple, had good marriage relationship and good relationship with their children, guess what? They would be the same group that would be the happiest in their 80s. All the other 80s are depressed, they're lonely, they're isolated, they're filled with fear. But the ones that were in strong relationships were so much happier. You see what I'm saying? So, in the end, with the centennials, they found that relationships are the key. Isn't that what the Bible and Principle teach in the end! We're made not to just produce things or whatever. We're made to relate with God. We are the perfect vessel for the relationship with God, give and receive action, to be his object partner, and return joy. That's literally how we're built. So, you would be a fool not to invest in relationships with God and with the covenants that he's given us. You see what I'm saying? It's foolish.

So that's why in the Completed Testament realm, we don't only have power of prayer and power of reading scripture. We have the power of relationships too. And we have the power of the Constitution. We have the power of the Rod of Iron Kingdom culture, which makes everybody on the same team! So we have to root for one another because if our families are strong then we have something to fight for, right? Is somebody who has something to fight for a stronger warrior or weaker warrior? Hell, yes! A stronger warrior, right? And at the same time, you have the success of the family and the success of the spousal relationship is so important because that becomes the strength of the warriors in the society, You have something to fight for! Not just for God but also you have your children and grandchildren to fight for. Fight for the legacy of the kingdom of God. That's why the Rod of Iron came and there is so much more and that's why without it you will not be able to turn the tide of the entire world collapsing into Islam or collapsing into paganism and Bilderberg New World Order political satanism. You need to have the Christianity that is loving like the father but also has his elements of being strong like the father and has the cultural elements that are not only the spiritual weapons of war but also the cultural elements that are there. That's why you have the worldwide media, even though we're so tiny, chasing us around all the time because they're so worried.

When Christianity comes in to the Completed Testament Age, satanists are in big trouble because it will create a whole new type of Christianity that is seriously culturally involved and that is seeking not only to dominate the spiritual realm but dominate the cultural realm as well. It will put all those assets of the kingdom of God into sending out the cultural message that now you can be in the kingdom. You can be a virgin before marriage and you can still be cool. You can still shoot guns and you can still ride fast motorcycles. You can still do things to train with your children and train with your wife because you

can do all these things that you can't do in the New Testament age where all you can do is pray and read. That's it.

Ice training

But in the Completed Testament Age you get to do the entire spectrum of an incredible life and in the end it's not only for you; it's for God. It's for His children. It's for His kingdom that he has erected. The purpose of doing all that is to protect it: to love God and love one another. That is a whole other realm because this is what they don't want the Christians to do: the lifestyle of the kingdom of God. The cultural realm is not only culturally exciting but it's fun.

Friday night was rainy so a shout out to some of the bushcrafters who just came in on Friday getting in that rain training. Oh, I hate the mud and the rain training. I tell you that much better, but we made it through; we made it through. We can't complain. We all got tents and we all know so we're cheating quite a bit but that's okay but you know we do the rain training we all do this stuff that people who don't like the adventure of training think it's crazy to do! Like why is the king always doing the freaking ice punch? It hurts so bad. I'm always trying to get people to do ice punch with me. Nobody wants to do it, especially on cold days or they want to do it just once. Every day, baby! You feel the pins and needles. You get stabbed every day with the cold and you love it! Every time I jump in that thing I say, okay, cold water, my old friend, here I come. I'll whoop your ass! You ready for me, boy? Sometimes you got to talk to the water.

Okay, that's okay. The water is a training partner. All right. But that's why, that's why they're so scared. Because in the end, they see if the New Testament realm becomes like a divinity, it's over. It's over for them. Because the Complete Testament moral will create strong males; it will create strong females. It will create strong marriages. It will create strong husband, wife, but also parents and children, and all that will also create the majority, you know, supreme free will, so some can reject God, but the majority will love God. They'll use their gifts towards God, right? Right? They won't use their gifts just to choose the trappings of the world. No, they'll say, okay, I don't need the big mansion, but you know, I can live in the tiny home and I'll be outside with my kids and I pour into my children and then we'll build it out as we grow. That's fine too.

That's what I was telling you, even the Japanese church, I said, we told our children, okay, you got to watch out for the leftist indoctrination in college and all that but then we said okay we're going to give you free money to go to college? I didn't do that because they follow the money, right? I didn't do much and my own children don't get one cent for college. Anything that daddy and mommy has saved is for your house. It's for your asset that you will have your nest in. And you're going to have absolute sex and romance training in with your wife. That's where you put the money (which is not a lot) but this is something. Something is better than nothing. The little that I have for you is not for college. If you want to go to college, you do that on your own. You have to make your own money for that. The money that daddy and mommy save for you is for your home. It's for your asset as a king or a queen, right? It's for your nest, for your husband-and-wife covenant. You understand? But for many parents it's so hard because they listen to the sermon and they're, oh that's amazing, that's great but still they say, yes I'll send the college money right away, children, okay? You understand?

Incentivize the most valuable things

They heard it in the sermon but now they're doing exactly what I said I'm not doing. I'm putting my money, I'm putting the incentive, where I want the children to see the value. In college, you want to do that? Do it on your own. That's fine. You can learn. You can learn in this new world. Think about thinking about this new world. You can learn a lot. What does Charlie Kirk say? He was telling young people, have a thirst for knowledge, but have a thirst for wisdom. So you know what you want to do? Watch a lot of podcasts. Guess what? When you go to college and listen to professors you're basically sitting in a room and listening to a guy talking. You're literally listening to a podcast!

So just watch really high-level people talking on podcasts. You're going to get educated but don't only search for knowledge which is things temporal, search for wisdom which is knowledge of things eternal. You see what I'm saying? There's a big difference between knowledge and wisdom. Amen. So if you want your children to make the right decision, you have to help them by incentivizing those decisions, right? Please. You know money talks and bull shish kebab walks. You know I don't really value just the things of this world and I don't just want my kids to make just money and run after money and careers. I really want them to have strong families and really strong. Okay? Okay, but then but then you put all your money in sending them to this school, that school, that school, this school, which in the end they don't use anyway. Since they've been so busy there, they've wrecked their families because they didn't invest at all in their families so now you didn't get both--you lost both! Or you got kids that just went into the career and money mouth and they left God. That's about 99% of the kids. Why? Because you incentivize the wrong spot. The spot that you said you wouldn't do. So, we had to be very careful where we put the money. Right? So that's why we become very careful how we're going to, instead of the little money we have for each child, okay, this is not for your college. There are many other ways to get educated in this world. But you need to put this money into your house with your children. I need to learn. You have a nest egg. You have a nest egg. You have an asset; you become a homeowner. You learn how to do property management. You learn how to build that thing. So you learn how to do basics of all these things. So, you learn how to maintain properties too.

You're already now developing all these numbers skills. You want to go to college: do continuing education, watch a lot of podcasts, do a lot of extra learning. That's fine. Do that. You got to do that on your own dime. Daddy won't give money for that. You do that on your own dime. We put incentives on the things that will help for marriage. Are you with me? This is the big difference. You the parents have to be very clear, especially the moms. You have to be very clear. You have to be careful where you put your money. You can say all you want that God wants us to be great relaters to him and he wants us to have great marriages and he wants us to have great relationships with our children. But a parent may say, here's all the money for school and career and career. That's literally all I care about. That is what you're telling your kids. If you fall into that trap, I know it's because society says that's the default. It teaches you have to do that. It's not true and you don't have to do that! You don't have to incentivize those things. You can put your incentives in other places, like into their relationship.

Everybody who knows and has been to college and back you all know how freaking much of a racket it is and it puts you in the hole 40k to 200k depending on where you go. And you will be paying that off for the next 20 years or so and you are a slave. It is such a racket unless you have to go through government licensing then you have to go to college. You may need engineer degrees or studies for lawyers and all this stuff, then you may have to do it but with other stuff you will not be using like courses in Feminist Studies and Gender Studies and Korean Wave of Phenomenon Studies. Idiots! Are you kidding me; you won't use any of that. You're just putting yourself in a financial hole.

So it's very important. Parents, you have to be very clear where we put the money. It has to match with our words. You can't say, I want you to have a wonderful marriage, great marriage, and I want you to have great relationships with your kids. But I also want you to just only focus on money and career, which means you will never be able to spend time with your wife or your children. The child is thinking, then which one of them? I can't do it all. You can't do it all. You can't do it all because you only have 24 hours in a day; you have to prioritize. It's like the girls that are so deluded they believe that, oh I can be and I can do it all and I will be superman. I can work two jobs. I can have a baby and be a great mom and I can go and live my girl life and go partying with my girlfriends. No you can't! No you can't!

Let's break it down what it is that you do is you're working two jobs. You're working this job and then you're working that job so you're working like what 12 hours a day. Maybe you got 12 hours okay. You got to sleep maybe it's what 6 or 8 hours. There you go: 16 hours 18 hours gone! There's only six more hours in the day And I know you're not spending six straight hours with your children because most of the time they're in daycare or with their friends or they're on video games. And at the same time you do have to have a little bit of time for you and develop your skills and to relax a little bit but you can't do it. You can't do all those things that well. You are not a robot. You only have a certain amount of emotional energy and work and job takes a lot of emotional energy out. By the time you come home, you're going to be a wreck, especially if you work two or three jobs. I'm sorry. It's going to be really hard to be a good person when you get home. You're going to be angry, bitter, pissed off because you kept it in all day and now your children are there and they're smaller than you. And they won't say anything if you take it out on them in the temporary. But it will come back to bite you and harm you in the future.

Training with your children is a full-time job.

Training with your children is a full-time job because it's like you're giving a class. You're training your children in the sophisticated sociological interaction. A lot of many hours of the day. You're homeschooling them. You're interacting with them at a higher level. You're training them. You're teaching them good or wrong. You're doing Bible class flash cards, study, and trivia quizzes with them. You're interacting with them and training them. You're leading classes and classes and classes with them. It takes a lot of time and energy. You don't just do that for eight hours and then have more energy to run around and do this and that and run around do this and that or run around do this and start your own business and run around and then to work three jobs on the side. And then you don't have time to run around and then go to yoga and go to the bar to go hang out with your girlfriends and so on . You

don't have time for you. Understand. That will not happen. You cannot do all that well and when you try to do that well, guess who takes the backseat? Your children. Oh my gosh the husband gets the back seat big time! So, your sex life will die. Your sex life will die. You will have no more sex life, which will raise the probability of your husband now cheating and trying to chase other booty. That probability is real high because he's not getting sexually satisfied. You're not going to have any romance because he's not going to put any energy into you because you totally neglect him all the time. Who gets the shortest sticks after your husband? That is going to be your children because they're will be thrown in daycare and raised by other people, potentially around predators. Oh, come on. It takes a lot of time to be a high-level parent and you have to constantly be updating. Like a iOS system, like iPhone, you have to be constantly updating because your children will try different new tactics every year. Especially when they get in their teens, they will try new tactics to try to hoodwink you and sit on top of your head!

So, you have to be constantly updating so you make them realize they can't sit on top of your head and daddy knows what's going on. But he still loves you and you're not going to do that. But that's why it's important. That's why it's a skill. It's not something you can just wing. Parenting is a skill. There are levels to it, right? Just as there are levels to emotional control, you have to have a lot of training in it. And your mind has to be focused on thinking about that and consuming a lot of knowledge and wisdom about that constantly. You can't do that while trying to be superwoman and superman doing everything. It doesn't work. One of those is going to collapse. Your marriage is going to collapse probably. Your children are going to collapse. Then finally your life will collapse. You see that?

So, you have to balance it well. So that's what we always tell the queens. Don't send the energy, money, money, money. "Oh my gosh, we have no money." If you send that energy to your man, he will start becoming a money man, which means he may get in the short term where he says, just make money, money, money, get you money, but you will have no relationship with him in 20 years. Most likely, he will be a terrible dad to your children with no relation for your children as well. Because why? All you were shouting about emotionally, indirectly, saying was money, money, money, we have no money oh money, money, money. You made him focus on that because that's what you said you wanted so he went and got it. But all the things that you actually needed like love and affection and attention and time spent with your children and guiding them and leading you leading you and leading your children, none of that will be there because you told him money, money, money, money, money. I want the big house big house, big house. I've lived in giant houses. They're just more to clean. Do you understand people? Do you know, do you understand how it is if you have a giant house? You are a slave to wood, furniture, and epoxy. They are literally your master. You have no life other than this. Good luck! Been there, done that. It's way overrated. I told her to tell the kids we don't have a lot of money to give you. When you get married, we can help with a little money here to put in your house. Have a place even a small space. Some of my kids live in an RV. That's fine. The world tries to make them feel bad that they live in a small space. It's better than a garbage bag. I was living in a garbage bag. Don't give me that! An RV is like living in the Taj Mahal compared to the garbage bag.

The world tries to make them feel bad because they live in a RV. If you utilize small space very well it is easy to clean, easy to manage, and you've got a lot of outdoor space that forces you outside, which

adds to your vitamin C count, adds to your health. You're interacting with nature, hearing the birds sing. You're hearing the little possums run around; you see a cat run around. You get healthier and your children of course go outside more which makes you play more and build what? More relationships, which makes you healthy long-term. Mr. Epoxy and your wooden furniture will not make you happy and you won't take them with you when you go to the spirit world. Trust me. Mr. Wood furniture and Mr. Epoxy will be here rotting. The only thing you got to take is those relationships. That's it! That's it! That's all you get to do. So, if you live in a tiny home or an RV or in trash bag, be proud of that trash bag! That's a gold trash bag fit for a king, baby.

Whether I'm in a palace or in a trash bag, I'm still the second king of Cheon il Guk because I was anointed by my father and I didn't choose myself. I did not choose myself. The circumstance does not determine the king. It's the anointing of the father that determines the king. Amen. That's it. That's it. Game over. It's done and so they start they start a small spot but it's okay as they get bigger then they can develop it out and of course as their children get blessed, Cheon il Guk cultures what you have to empower your children and your grandchildren to have sovereignty too because they have to be king of their little kingdom. Don't just live like commies in a huge comp mansion in one house. Trust me, if you have a lot of people living in one house, you are going to have constant civil war. I guarantee you. The girls will be fighting about the kitchen, where the spatula is, where the freaking spoon drawer and the fork drawer is. They will be fighting over the pan drawer. They will be fighting over... Who touched this? Who moved this? It will be constant civil war! Give them their own space! Like the kingdom of God. You understand? You understand? You will have constant civil war. You think, oh I want to live with my family in one big house.! Okay, once they get married you will have constant civil war. Trust me. Give them their own space. You have to want to encourage them to get their own space. You can live on the same property. In kingdom culture you can live on the same property but they should have their own space that they can retreat to and none of the siblings and the parents can be there. They're away from all that and they just have each other and the children but they're still in the community of the family tribe.

I'm saying your children have got to have their own little kingdom; you can't keep them suspended children for the rest of the life. You have to let them be the kings of their own kingdom too! So, the same with your children and grandchildren. We have to encourage them to build their tiny home for the young. Cheon il Guk culture, by the time you're out high school, 18 years old, you'll be a homeowner and you'll learn to build your house. Because part of high school will be learning the carpentry, the plumbing, will be learning the electric, and one of the high school senior projects will be making your home. So you're not just learning about the science, you're learning how to apply it, and you'll do it in a realistic way where you can live in it! You will save hundreds of thousands because you know the basics: carpentry, electric, sewage, plumbing. You know the basics of wall construction. You know the base of all this stuff so you don't call him to call these contractors. You can do all the basic stuff. That's why at Kingdom Academy we also do oil changing, the basics of mechanics. Someone teaches basic mechanic stuff like oil change so that you don't have to waste money on that. There are all simple skills you can learn it's all money in your pocket, money in your bank, that you're throwing out because you didn't learn the skill and playing video games. By learning these skills, you get empowered. You get to develop these assets which lasts the rest of your life and you can teach your children how to do it too.

By 18 you'll be a homeowner in Cheon il Guk culture. You'll be proficient with martial arts. You'll be proficient as a protector. You'll be proficient with security systems. You'll be proficient with weapons and firearms. You'll be proficient in building houses. You'll be proficient in maintaining houses with electric and basic plumbing and all this kind of stuff. You will understand that entire realm of real living and property management, asset management. At the same time, you will be hearing preaching constantly that is focusing on building up relationships God has given you. So, you will be also preparing for your wife. By the time you're 18 you make your tiny home for your nest so you can have a beautiful love and romance and absolute sex romance life in that tiny home and make that baby shake up to the high noon!

In the presence of God there is shaking going on with the husband and wife. Okay with a husband wife not outside there. Not like outside burning down society like the Western world. Okay, but in the kingdom it all goes down in the palace in a tiny home.

You understand so you'll be learning how to do that at an early age and you'll be learning from a very young age you have to invest in relationships and that boys have to become more romantic and funnier. Father said the male's responsibility in terms of sex and romance is you have to be funny. You have to bring funniness to your home. All right, you have to be fun, and you have to be funny. So, you can't just pull out the scripture and say, honey, True Father said absolute sex. We have to do it tonight. If you do that, you are a devil! You have to also bring joy to your wife and romance her. You have to step up your own game and then your wife feels romance. Then your absolute sex life will become better. Trust me. It gets better if she feels love. If she feels romance, and she feels there's playfulness, she feels there's that fulfilling leadership in the home by the husband, she will be more than happy in your absolute sex life, right? Because her needs as a woman will be provided. Right? So, you have all these skills, plus you'll be learning how to invest in your future marriage and your children with the day training and all the different training we do. Oh my gosh, it's a whole lifestyle.

And at the same time, you're not going to be in perpetual debt and paying off the debt slaves and central bankers for the rest of your life. The central bank is even prohibited in the kingdom of God. It's just unbelievable and unreal but that's the difference between the New Testament and the complete testament age. We have a whole entire national culture that is different. We're not just about only reading and prayer. We do those things, but we also have all this manifestation in the culture, which fights constantly the satanic cultural realms, which will continually try to fight against the kingdom. As we see in Revelation chapter 20 as well. Satan kingdoms do try to come up against God's kingdom as well in the end time. So that's why it's so very important to train and to be investing in your key covenantal relationships. Covenantal means your promise with God. Covenantal also means what? Marriage. Did you know your husband and wife, you are in a covenantal relationship. Oh my gosh. You are in a covenantal relationship. Covenantal. That's like your relationship, like how serious it is with God. That's how serious it is with your husband and wife. You're in a covenantal relationship. What does that covenant come from? Of course, it comes from True Parents, right? But the point is you have to train in there. We have to manifest victory there, right? And that's why we do three generation training with the next generation coming.

We don't only have weapons of the spiritual realm. We also have cultural weapons. With all these

incredible cultural weapons that God has given us, we defeat Satan's culture and maintain God's kingdom. We can have strong poimaino (shepherd's) reign. That's incredible. Why does it come? Because Father comes as Lord of the second advent to bring the Adamic culture. That is the only culture that can defeat the secular, postmodern, atheistic, destructive, self-centered idolaters, heretical, and hedonistic systems. That's the only system that also can override and defeat culturally Islam, which is on the rise. So in the end, the New Testament Church has to graduate to complete this realm and that is why the worldwide elites are afraid of True Father and they're afraid of his kingship and they're afraid of the culture that follows that and the Constitution because if Christianity does come into that culture, it's over. It's over for the globalists. It's over for the political satanists. It's over for totalitarians and it's over for the caliphates. It's over for all of them and it will be true freedom, responsibility, a true kingship, and unity with our loving Creator, and so much incredible relationship with our True Father and the True Mother who loves him. She doesn't want to be worshiped. She loves him. She gave everything for him. She doesn't want to be worshiped. Amen. So there's so much power there, so much power there.

So as we are reflecting on Numbers chapter 33 and we saw the Israelites and how the whole new satanic kingdom's cultures have to be pushed out and replaced with God's culture, God's kingdom, God's Constitution. God's will for humanity is coming quickly, folks. The devil can't stop it. It has already been released! Our True Father is the victor on the throne and he has proven on the micro and the macro we have seen with our own eyes he is on the throne; He is leading from heaven! Let's pray.

Prayer

Our Father God, we thank you for this beautiful day. We thank you. We thank you. On this incredible Sunday, we study Numbers 33. I was always reminded by the incredible synopsis in Numbers of all the paths that the Israelites walked with Moses in that critical wilderness period in the plains of Moab and all those things leading up to Joshua, Caleb, and the spies. Dear God, we saw all this incredible stuff, so many rebellions, so much hypocrisy. And then we even saw the first generation could not make it in the kingdom of God and the land of Canaan. Even though second generation made it in to Canaan, they messed it up. So there's so many things that we have to learn from God. We have to learn His wisdom, not just knowledge. We should be thirsty for knowledge but beyond that: wisdom. Wisdom gives us insight into the things that are eternal. Dear God, go before us and put confusion at the enemy encampments! Take down the shadows and the darkness and the satans and the serpents that lie in the tall grass and the short grass, in the caverns, in the caves, in the valleys, and amidst the trees.

Let them all be defeated by the word of your power of your word and the word of your Holy Spirit by the cultural realm of Cheon il Guk that is coming and overtaking all the satanic systems, which are collapsing before our eyes. We know that this thing must be done and that a whole new world geopolitical shift must happen so we pray for all the leaders that you are using in the Abel camp right now. We pray for Trump that he would be lifted up, he would be strengthened, especially as he is on the cross right now. We pray all the chains be shattered and broken off right now in the mighty name of Jesus and True Father. We pray that you will give him a mighty strength and inner power and a supernatural power that it go beyond his own strength and his ego, which is very big and we pray that

be reduced. And we pray that his grace and his thanksgiving be raised unto you will be increased and that he will rise more powerfully. He said he is willing to even go to jail and that's a good spirit. That is spirit of the martyr! Let that spirit increase in him as he stands up against these satanic political elites in this critical time.

Father, we pray for all the Abel-type patriots that are in this world and at the Shot Show and all those folks that are all going to be connected to your power in the kingdom. We pray for the New Testament church that now is the time of graduation. Now beyond just prayer and thanksgiving and sitting in the pew, now it is time for the cultural shift to happen so that they can enter the Complete Testament age and be protected by the kingdom constitution forever. Let the angels and the holy host come down. Let us stand amongst all the soldiers and all the patriots and all the patrons that are all standing with you in your kingdom! Let them all be filled up with the Holy Spirit. Let the tongues of cloven fire come down upon our heads and anoint us with the Holy Spirit and the Holy Fire! Let us go before and let us go to the east and the west and north and south. Let us move with mighty anointing and mighty courage and mighty power for we will not fail because we are standing with you. With man it may be impossible, but God, all things are possible with you. So, we want to give you the praise, glory, and honor. We know, Father, you are on the throne. They doubted you. They said you were burning in hell, but you showed up. You showed up, and you showed truth, and you showed the prophecies right before our eyes to manifest not only on the macro but also on the micro. We have seen it, and there's evidence of your holy ascension and your presence on the throne of God, sitting there and leading all of providence. We ask that your will and your kingdom is the center of our hearts, For all things shall be added unto us as we seek your kingdom and your righteousness. We want to give you the praise and honor today with all the kingship lines gathered here with three generations kingship and we pray in your precious name. Amen, amen and aju, aju. Let's all rise, folks, and give the glory to God. That's right, folks, give the glory to God.

Numbers 33 Here are the stages in the journey of the Israelites when they came out of Egypt by divisions under the leadership of Moses and Aaron. ² At the LORD's command Moses recorded the stages in their journey. This is their journey by stages:

³ The Israelites set out from Rameses on the fifteenth day of the first month, the day after the Passover. Destroy all their carved images and their cast idols and demolish all their high places. **53** Take possession of the land and settle in it, for I have given you the land to possess. **54** Distribute the land by lot, according to your clans. To a larger group give a larger inheritance, and to a smaller group a smaller one. Whatever falls to them by lot will be theirs. Distribute it according to your ancestral tribes.
- 55** "But if you do not drive out the inhabitants of the land, those you allow to remain will

become barbs in your eyes and thorns in your sides. They will give you trouble in the land where you will live. **56** And then I will do to you what I plan to do to them.'"
