Why?

The **Feedback Tribe** gathers people like you and me, whose success in work depends on understanding customers. In this tribe of like-minded professionals, you can exchange experiences, ideas, and knowledge. We believe in feedback-led growth, both personally and professionally.

We live and breath feedback & customer-centricity. And they are the strength to our businesses.

What for?

The Feedback Tribe members desire to **learn and build strategies** and tactics. We are here to **talk hands-on experiences** and innovative experiments. Do you want an opportunity to ask expert questions, or do you need a nudge for your bright idea?

This is your tribe.

Values

01. Make Feedback Matter

The pursuit of feedback helps us grow, personally as well as professionally. We do the same for our business by growing with customer feedback

02. Build Relationships
