

The main channel entrance to the harbour and ferry slip are areas with a high volume of vessel traffic and should not be used for swimming.

Wild Swimming Safety Tips:

Chose your swimming spot carefully.

Carry a floating dry bag with a mobile phone in a waterproof case so you can call for help.

Never swim alone.

Know your limits.

Wear a brightly coloured swim hat and take a tow float with you.

BE SAFE, BE SEEN!

Always have a means for calling for help.

Avoid swans, especially during nesting season.

If in doubt, don't go out.

Plan your swim and check the forecast.

A wetsuit will keep you warmer and make you more buoyant.

Call 999 or 112 and ask for the Coastguard in an emergency.

BE SAFE IN OPEN WATER

Thank you for your cooperation.
