

# HABITATS & ADAPTATIONS

## Across

3. An animal covered with fur or hair and that provides their babies milk.
4. These landforms rise high above their surroundings. Taller than a hill, they usually have steep slopes and a rounded or sharp peak.
5. An animal characterized by being covered with feathers and having wings and a beak.
9. Rivers and streams are moving bodies of \_\_\_\_\_.
14. An animal that eats only meat.
15. A grassy plain in tropical and subtropical regions, with few trees is called a \_\_\_\_\_.
17. An animal characterized as being cold blooded with scales covering its body.
18. \_\_\_\_\_ plants and animals have features that help them survive in the dry climate.
19. \_\_\_\_\_ animals are active primarily during twilight - that is, the periods of dawn and dusk.
20. An \_\_\_\_\_ is a huge body of salt water.
22. A vast, flat, treeless Arctic region where the subsoil is permanently frozen is called a \_\_\_\_\_.
23. \_\_\_\_\_ is a visual disguise. Without it, an animal would be recognized easily.

## Down

1. A \_\_\_\_\_ is a major regional group of distinctive plant and animal communities best adapted to the region's physical natural environment, latitude, elevation, and terrain.
2. The natural home or environment of an animal, plant, or other organism is called its \_\_\_\_\_.
6. A \_\_\_\_\_ animal is active during the day and sleeps at night.
7. A \_\_\_\_\_ is a type of wetland where trees are common.
8. An ecological \_\_\_\_\_ is the part of the environment where a species fits, and is well adapted and is how an organism makes a living in a place.
10. A \_\_\_\_\_ is a dense forest rich in biodiversity, found typically in tropical areas with consistently heavy rainfall.
11. An animal that eats both plants and meat.
12. An animal only active at night is a \_\_\_\_\_ animal.
13. An animal that eats only plants.
16. A special characteristic or trait that an animal or plant evolved to have that helps it survive.
21. A hollow in the earth formed by geologic processes. A \_\_\_\_\_ is home to many organisms like bats and many different species of arthropods.
