

BALLINGER MEMORIAL HOSPITAL DISTRICT
COVID-19 VACCINE BOOSTER ADVISORY
<https://www.ballingerhospital.org/public-notices>

Ballinger Memorial Hospital District (BMHD) announces availability of COVID-19 vaccine boosters.

COVID-19 vaccines for Moderna, Pfizer and Novavax are currently available at Keel Drug (2001 Hutchins Ave.). For persons who have been fully vaccinated with the Moderna or Pfizer vaccine, the Moderna Bivalent and Pfizer Bivalent booster vaccines are available as well as the Novavax booster vaccine. Bivalent Moderna, Bivalent Pfizer and Novavax boosters are available 8 weeks after completion of the primary series or 8 weeks after a Monovalent booster. Currently only one Bivalent booster has been approved.

The CDC recommends that people talk to their healthcare provider about their medical condition and whether getting an additional dose is appropriate for them.

If you are not sure which vaccine you should get, please contact your healthcare provider prior to arriving for a COVID-19 vaccine.

Covid-19 vaccine walk-ins are welcome at Keel Drug.
