PART COUNTS

Twisted Tower is built with parts included in the Gridopolis starter set. No extra parts are required!

2

GRID-SET

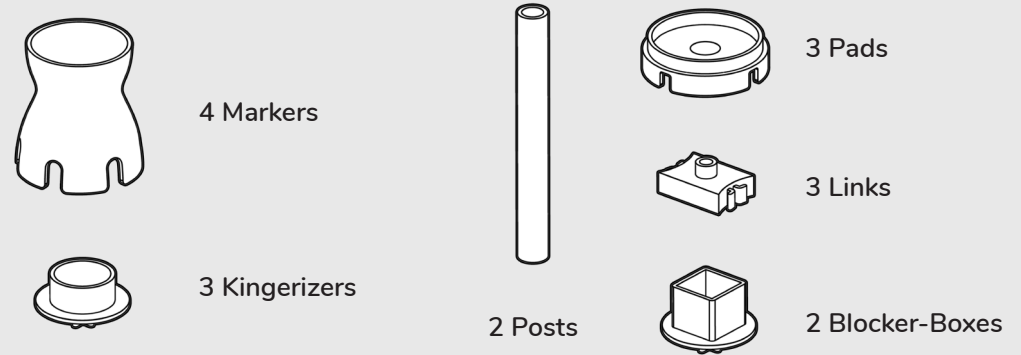

88 PARTS

Build a grid-set using the plans starting on page 3.

EACH PLAYER

17 PARTS

To be placed on the grid-set after it's built.

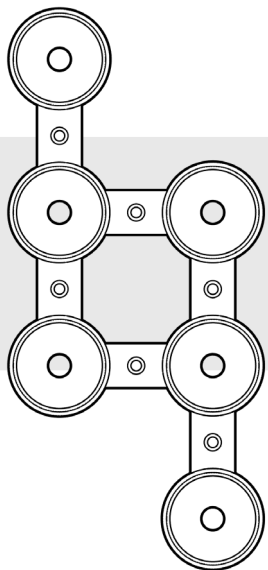

Keep separate and use at any time during play.

START BUILDING

3

Build the floors

Each floor has
6 pads + 6 links

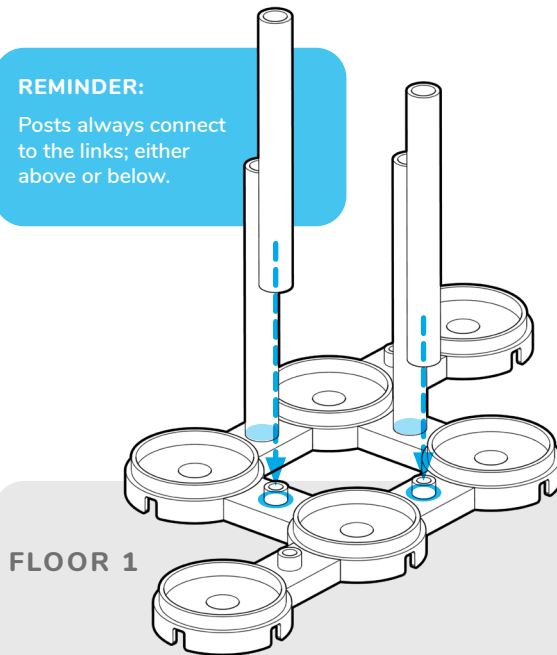

STEP 1

Build six identical floors.
Keep them separate until STEP 3.

Get vertical!

REMINDER:

Posts always connect
to the links; either
above or below.

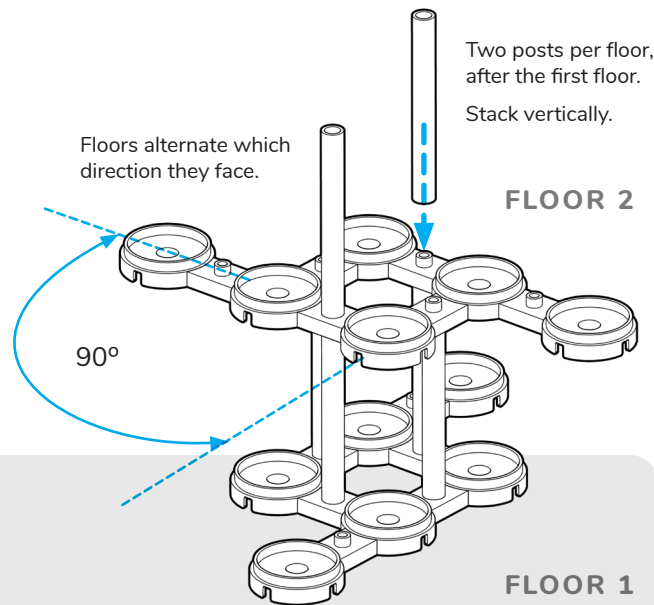

FLOOR 1

STEP 2

Connect four posts to the center four
links. Only the first floor has four
posts; all other floors have two.

Rotate and stack the floors

Floors alternate which
direction they face.

90°

Two posts per floor,
after the first floor.
Stack vertically.

FLOOR 2

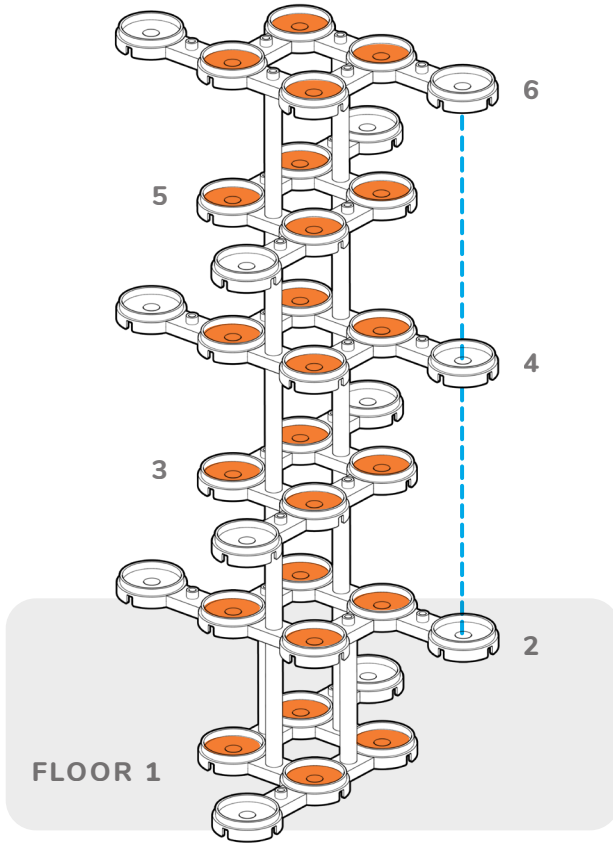

FLOOR 1

STEP 3

Turn floor 2 by 90° (either way) and
connect to floor 1, matching the four
center pads. Add two posts above.

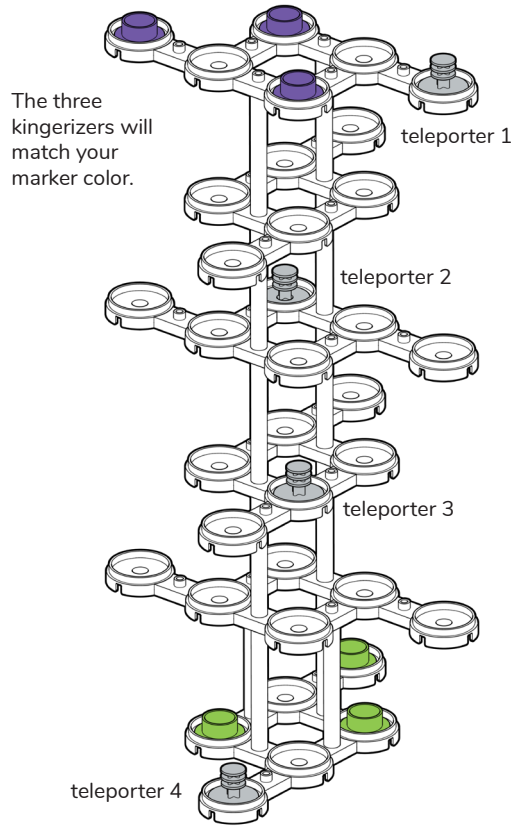

BUILDING THE GRID-SET

4

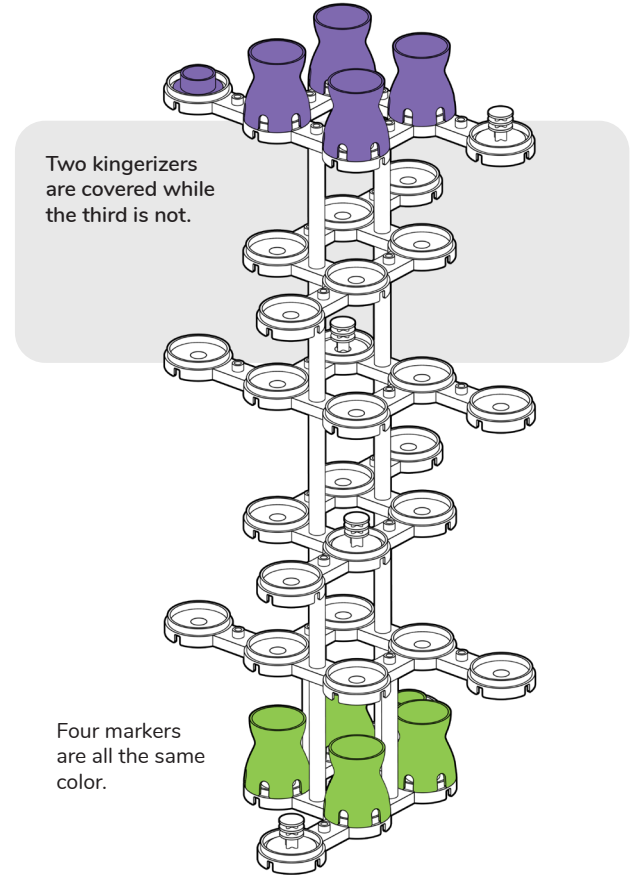

STEP 4

Connect floors 3 through 6 with alternating rotation as shown. Use two posts on each floor and stack up.

STEP 5

Place the three fingerizers at the top and bottom as shown. Place four teleporters as shown.

STEP 6

Place four markers on the top and bottom floors. Match the fingerizer colors.
