PART COUNTS

3D Solitaire is built with parts included in the Gridopolis starter set. No extra parts are required!

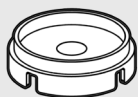

START BUILDING

59 STRUCTURAL PARTS

+ 24 PLAYER PARTS

8 Posts

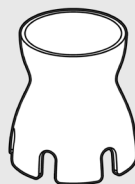

27 Pads

24 Links

Build a grid-set,
starting with **STEP 1**.

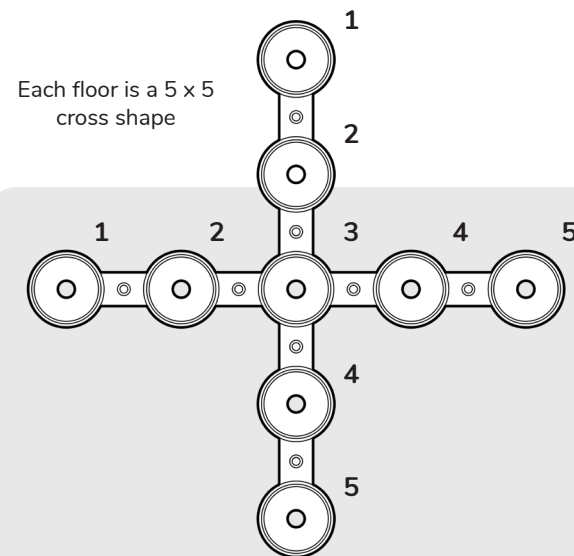

24 Markers

To be placed on the
grid-set after it's built.

= 83 TOTAL PARTS

BUILD THE FLOORS

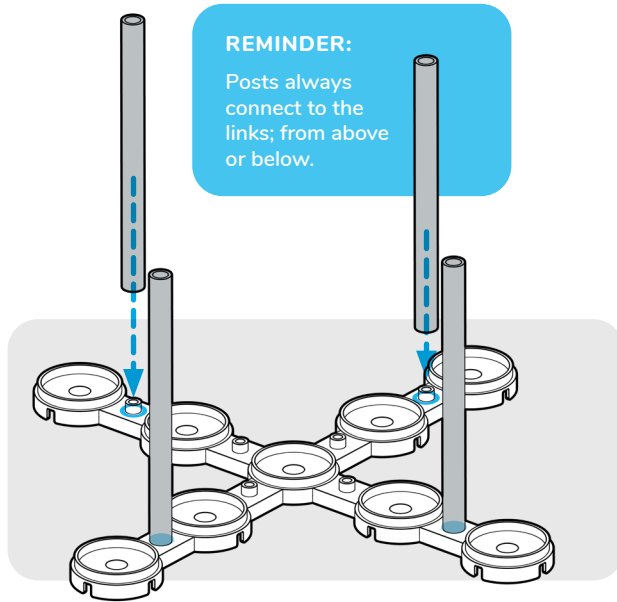

STEP 1

Build **three** identical floors.
Keep them separate until STEP 3.

BUILDING THE GRID-SET

3

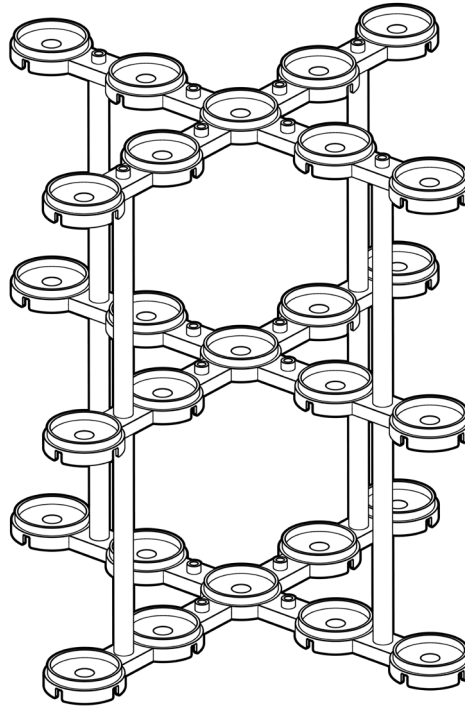

GET VERTICAL!

STEP 2

Connect four posts to the four link locations shown.

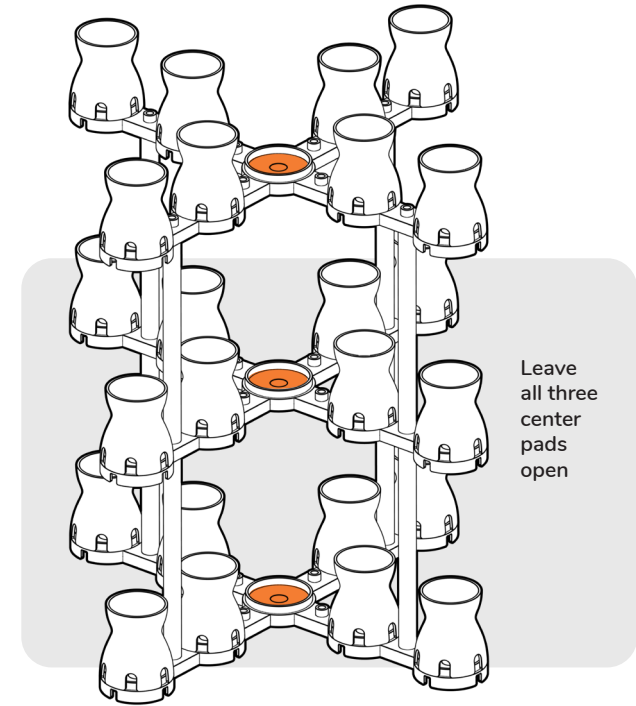

STACK THE FLOORS

STEP 3

Connect the three floors. The upper posts should be over the lower posts.

PLACE THE MARKERS

STEP 4

Place all 24 markers on the pads as shown. Any color can go anywhere.

THE RULES

4

GAMEPLAY & GOAL

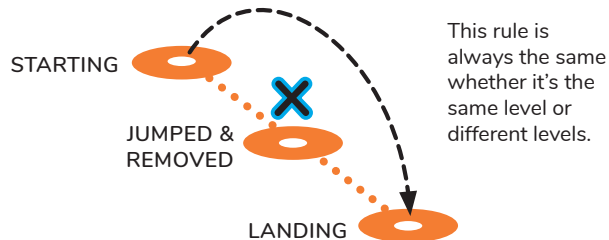

The goal of 3D Solitaire is to clear the grid-set by eliminating as many markers as possible. You eliminate a marker by jumping over them with **any other marker**. The marker that was jumped is removed from the grid-set and set aside.

You can move any marker at any time.

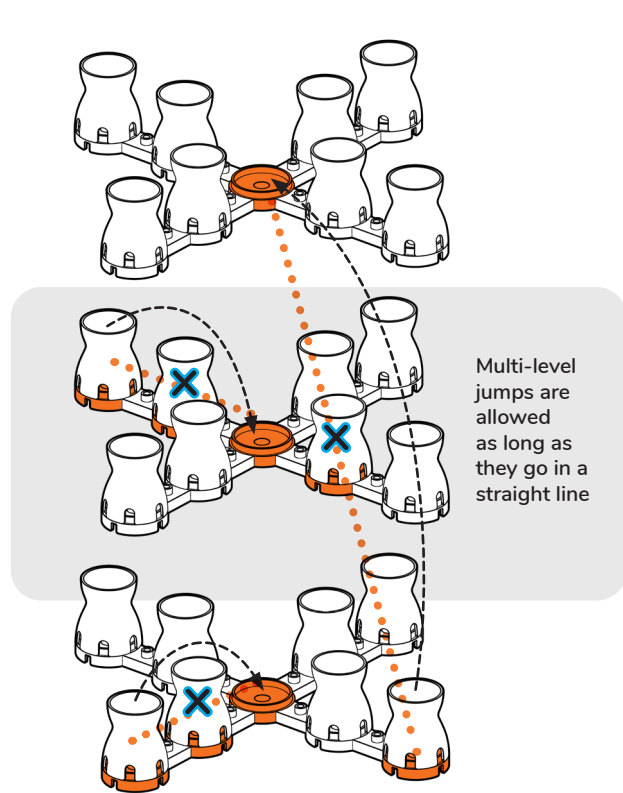

The ultimate goal is to end up with a single marker left on the grid-set. It's harder than you think!

JUMPING in 3D

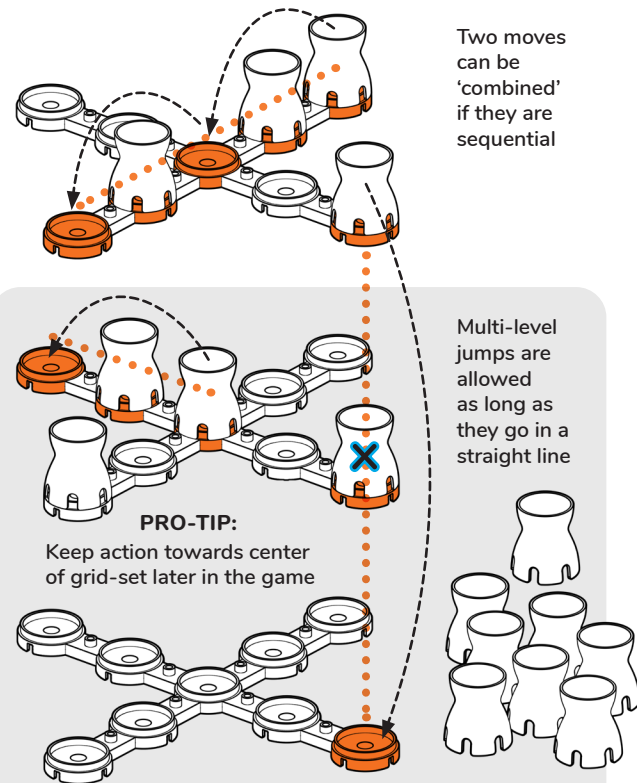

Any jump move must follow the 'straight-line' rule from Gridopolis.

JUMPING

Three example moves from the beginning of a game.

Three example moves from later in a game.
