

Comprehensive Education

CCHAT Center offers a customized listening and spoken language (LSL) education for children with hearing loss, from birth through 3rd grade. Our world-class staff creates a supportive learning environment that follows your child's developmental age and unique learning style.

CCHAT's comprehensive services for children with hearing loss include:

- **Intensive classroom instruction**
Small class sizes provide individualized attention from CCHAT's certified teachers of the deaf, with classes following California curriculum. Classrooms are designed for the unique acoustical needs of children with hearing loss.
- **Individualized speech therapy**
Students receive daily, 30-minute speech sessions designed for their specific needs.
- **Audiological support**
CCHAT's on-site audiologists assist families and ensure child's access to optimal sound.
- **Parent support and education**
Parents are guided through their hearing loss journey by a supportive staff of LSL experts.

CCHAT's unrivaled staff of licensed professionals aims to develop your child's listening and spoken language skills, preparing them for success in mainstream schools.
