

AFTER-READING ACTIVITY

The National Chore Chart

DIRECTIONS: Now that Aschenputtel is married to the prince, she is using her power to mandate that chores are split equally in every household.

Help her make a new Chore Chart in **German** that her family will have to follow. You can start with chores from the story, but look up how to say other chores and add them in.

(Examples from the story: *Sweep the hallway! Clean the kitchen! Cook our dinner! Tidy our bedrooms! Mop the bathroom! Clean the windows!*)

Remember — you are **giving commands** when you tell people to do chores, so make sure you use the **command form** of the verbs in German.

What would you make the stepmother and stepsisters do?
