

# Childhood Vaccination Workflow: After Office Visit

## CHILD RECEIVED VACCINATION

Send the child's parents or caregivers a reminder (for [young children](#) or [teens](#)) via patient portal, IIS, email, text or mail that their child will be due for additional vaccinations at their next appointment. Also remind parents and caregivers that they can look at the CDC's [recommended immunization schedules](#) for more information.

## PARENTS/CAREGIVERS REFUSE VACCINATION FOR CHILD

Send the child's parents or caregivers a reminder (for [young children](#) or [teens](#)) via patient portal, IIS, email, text or mail that their child is due for certain vaccinations at their next appointment. Include educational messages (for [young children](#) or [teens](#)) and/or handouts about childhood vaccines to help address specific questions or concerns.
