The Topic

Characteristics of each cause (think of some adjectives)

What are the causes?

What are the effects?

Characteristics of each effect (think of some adjectives)

What is the event?

Flow Chart

Input - Output diagrams help us map out the causes and effects of a particular event. This helps us understand why something happened and what the implications are.

Start by putting the main event in the central box. Use the boxes on the left to list the reasons for the event and the boxes on the right for collecting the impacts of the event.

New Vocabulary?

Reflection

How well did you **understand** the key ideas?

How **interesting** did you find the topic?

Elaborate

Talk through your ideas.

Summarise

Brief statement of main points.
