

Why welbi

Welbi's software is trusted in hundreds of senior living communities and used by thousands of life enrichment professionals like you. Welbi empowers life enrichment teams with the right tools to deliver personalized experiences to your residents.

How We **Support** You

Welbi is the simplest way to go digital and replace outdated processes. The platform gives you access to all the resident data and tools you need in one central location.

✓ **Spend More Time With Residents**

Welbi saves teams up to 25 hours on administrative tasks per month so you have more time to spend with residents. Design your activity calendar, take attendance, print custom reports, create personalized programs and more in a fraction of the usual time with Welbi.

✓ **Get Real-Time Program Insights**

Welbi's real-time insights help you create personalized life enrichment programs for your residents. The platform analyzes resident data and suggests program ideas based on your community's interests. It also predicts who is most likely to attend a program so you know who to invite.

✓ **Meet Your Community's Engagement Goals**

Be confident that all of your residents are getting the engagement they need. Welbi alerts teams when a resident is at risk of social isolation so you can take action. The platform's goals dashboard helps teams stay on track of community objectives.
