

Welcome to welbi!

We're incredibly excited for you and your team to get started with Welbi. Over the coming weeks, Welbi will allow Amica Senior Lifestyles' life enrichment team to deliver exceptional, personalized experiences to residents.

Welbi for Families

At Welbi, we understand how important it is for Amica Senior Lifestyles to keep residents' families informed on how their loved ones are doing every day. With the latest software tools, Amica Senior Lifestyles' life enrichment teams will be able to keep families in the loop and excited about their loved ones' well-being and day to day activities.

✓ **Get a Personalized Calendar for Your Loved One's Activities**

It can be stressful for families to not know what their older loved ones are up to. Welbi allows life enrichment teams to easily create and send personalized calendars that show families the exact programming that their loved ones may want to attend and participate in.

✓ **Assure Families with Personalized Reports on Engagement**

It's natural for families to want information about how their loved one is doing and how they're spending their time each day. With Welbi, Amica Senior Lifestyles is able to provide reports for each resident to their families, to show their participation and engagement levels in v programs.

✓ **Ensure the Safety of Residents with Built-in Contact Tracing**

At Welbi, we know the significant impact COVID-19 outbreaks have on senior living communities. With Welbi's contact tracing feature, Amica Senior Lifestyles can quickly and easily determine contacts during life enrichment programming without having to dig through mountains of paperwork.
