

STAGEPRESSER™ MEMBRANES

Flexible growth surface for use with the StagePresser™ device.

- Compatible with the Flexcell® Compression System.
- Each membrane contains an acrylic piston which is compressed against a stationary platen on the StagePresser™ device to deform 3-D tissue samples or cell-seeded constructs.
- Ring foam holders keep samples confined to central region of each membrane.
- Each membrane comes individually packaged in a sterile cell culture dish.
