

## A PORTRAIT OF A GRADUATE IN THE SOUTHWESTERN UNION

The Southwestern Union has developed a set of measurable outcomes—the 7Cs—for our students that are sometimes referred to as a portrait of a graduate or global competencies. They outline the overarching skills and attributes that are necessary to be citizens of this world and for eternity. Research-based and comprehensive, these outcomes provide clarity when designing and evaluating learning experiences. They also foster equity, social-emotional learning, and well-being.
