Count & record your score, & sign your scorecard (attesting it's true and accurate). **Take a picture of your score card for your records!!!** Each team must post at least 4 individual scores per round. The 4 highest scores (from 4 separate team members) will count for any given round. The other scores will not be used for that round. If you miss a league round, you will be given a zero. If a team does not post at least 4 scores (from 4 separate team members) for a league round the team will receive a zero. *****THERE IS NO RE-SHOOTING OF ANY STATIONS FOR BETTER SCORE DURING A LEAGUE ROUND OR PRACTICE SHOOTING A STATION PRIOR TO SCORING IT. Once you have started a league round you must complete and score a station before any practice shooting at that particular station can take place.** Anyone found doing this will be considered cheating and be removed from the league. Practice shoot as much as you want AFTER scoring a station, those practice scores CANNOT be turned in for league.***

***** Team Competition, Classes, and Team Scoring:**

Team Competition will be based on a sliding team class system. Class breakdowns will be established after the first session is complete.
