

OPSRC

Oklahoma Public School Resource Center

What is NWEA

The Northwest Evaluation Association (NWEA) and OPSRC have joined forces to bring you a deeply discounted subsidy on one of the best assessment tools on the market.

One of NWEA's assessment tools, Measures of Academic Progress (MAP), creates a personalized assessment experience by adapting to each student's learning level. This provides teachers with a precise measure of student progress.

With MAP, you'll have essential information about what each student knows, and the data will be ready for you to review within 24 hours. This will allow you to quickly assess your students' needs and immediately work with families on any necessary intervention.

We Offer a Subsidy

OPSRC provides a significant subsidy for the MAP tool. Pricing for NWEA is a 3-tiered system:

- Year 1: The district pays \$4.50 per student, and OPSRC pays \$8.00.
- Year 2: The district pays \$6.40 per student, and OPSRC pays \$6.00.
- Year 3: The district pays \$8.50 per student, and OPSRC pays \$4.00.

Other Benefits

- High-quality, on-site professional development for your entire staff
- Regularly scheduled, free regional workshops that representatives from your district can attend (hosted by NWEA & OPSRC)
- Expert technical assistance and support from OPSRC staff
