

The SAFETY Driven Telematics Solution

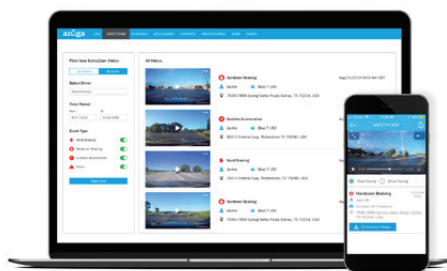

Safety and accidents are a major cost for your business, your reputation and your employees.

Unsafe-Driving Accident Costs

Average cost:	\$16,500
Average cost with injuries:	\$74,000
Average cost with fatalities: ¹	\$500,000

1. Get visibility into unsafe driving activity

Improve safety through alerts and quickly investigate risky driving evidence to prevent accidents.

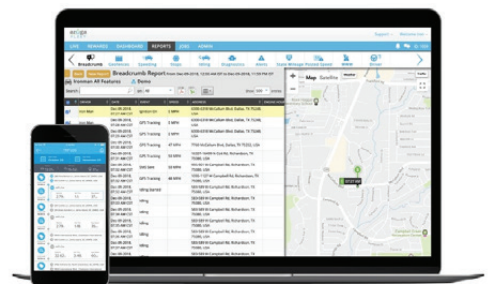

2. Identify and coach high-risk drivers

Identify at-risk drivers and personalize training and rewards based on individual driving behavior data.

3. A Comprehensive Fleet Telematics Solution

Combining video with GPS fleet telematics in an easy to use interface - Save money while knowing what your drivers are doing.
