

The SAFETY Driven Telematics Solution

Azuga Fleet is a powerful solution used by both large and small pest control fleets to improve their operations, safety and bottom line. Put Azuga to work for your fleet to increase safe driving habits among your drivers, reduce the risk of accidents, deliver better customer service and ensure your drivers safety every day.

Managers love it.

Azuga Fleet is incredibly easy to use—just plug it in. No installation costs, no downtime. Data pours into the secure management portal, giving instant insight and reporting that’s easy to read and easy to use. Customers say it’s the most user friendly portal they’ve ever used.

Technicians love it.

Azuga Fleet lets you move from “gotcha” to “great job!” Unlike other fleet tracking solutions and safety programs, which are punitive, our unique approach to Driver Rewards gets technicians engaged and motivated to drive safely and win. And when they compete, you win.

Bottom line: you’ll love Azuga!

You’ll manage a safer, less costly and more efficient fleet. No gotchas, low up-front costs, no punishing contracts or termination fees. For one price you get it all: data and reports for control and savings, driver safety scores and rewards, vehicle maintenance and much more.

“We chose Azuga because its solution was easiest to use, install, and implement, helping us to become more efficient, increasing productivity and safety among our drivers. We’re really happy we made the switch.”

Eric Sietsema, CTO, Sietsema Farms

“GPS vehicle tracking technology has been around for a long time. Every time we looked at it we were faced with expensive hardware and software costs, inaccurate data on idling and fuel consumption, painful installation scheduling, and lengthy contracts. Azuga made it a no-brainer. At just 70 cents per vehicle per day, Azuga helps save money from day one.”

Stephen James, Operations Manager, Earthtech Landscape

Features and Capabilities

Fleet Operations

Managing fleet and field operations takes a leap forward with Azuga Fleet.

- Real-time Vehicle Location/Status
- Fleet Performance Dashboard
- Fuel Usage and Fuel Card Integration
- Vehicle History Trails
- Occupant Recognition
- Trip Tagging and Miles per State
- Find Closest Driver
- Geofences/Landmarks with Alerts

Powerful Reporting

The insights you need for effective fleet management are at your fingertips.

- Speeding and Fuel Usage
- Activity Summary and Trip Logs
- Stop Reports and Idling
- Breadcrumb and Who Was Where
- Geofence Entry/Exit and Landmarks
- Driver Scores and Rewards
- 19 pre-built reports plus custom reports
- Automated report delivery

Driver Behavior and Safety

Building a safety culture becomes much easier with Azuga Fleet score and rewards.

- Driver Scores (portal, mobile app)
- Driver Rewards (portal, mobile app)
- Harsh Braking/Hard-core Breaking
- Speeding and Sudden Acceleration
- Hard Cornering
- Seatbelt Usage Compliance
- Excessive Idling
- In-cab Alerts for Safety Events
- In-cab Dashcam
- Online video-based coaching

Fleet Health

Azuga fleet takes the headaches out of fleet maintenance management.

- Engine Diagnostic Reports (DTC Codes)
- Vehicle Service Entries
- Maintenance History
- Preventive Maintenance Scheduling with Alerts

Real-time Alerts

Keep operations under control and ensure your team is safe and productive.

- Speeding
- Hard Braking
- Stop Time and Idle Time
- Unauthorized vehicle usage
- Low Fuel & Low Battery
- Sudden acceleration
- Check Engine Light
- Alerts shown on portal and emailed

Customer Support

Azuga's top-notch support helps deploy smoothly and get successful quickly.

- On-boarding and Account Configuration
- Web-based Training
- Toll-free Telephone Customer Support
- Online Support and Knowledge Base
- Data Storage
- Custom API Integration
- Advanced Custom Data Analytics
- Lifetime warranty on Azuga Device

Add-on Features

Boost the data and control you get from Azuga Fleet.

- Azuga SafetyCam dual-facing in-cab camera
- Azuga Coach online driver coaching
- Posted Speed Limits with Alerts and Reporting
- Fleet Maintenance Module
- Fuel integration with WEX, Voyager and Comdata
- High Frequency Tracking at 1-minute Intervals
- Distracted Driving Prevention
- Cross-border Roaming in Canada, Mexico, USA

Features and Capabilities for Larger Fleets

For customers with large fleets, Azuga offers features and capabilities that give management the data and control needed to manage fleet and service operations across a large operation and multiple locations.

- Large account features: hierarchical groupings (location, groups, vehicle types); role-based permissions; and visual clusters on the live map for concentrations of vehicles in locations.
- A rich set of APIs for integration, pre-built integrations with fuel card and fleet management partners, and an engineering team to assist with integration and customization.
- A Customer Success Team acts as an extension of your fleet operations, getting involved from day one to ensure a successful deployment and ongoing satisfaction.
- Azuga's Data Science Team is available to help analyze the immense data set captured through Azuga to generate new insights into safety, productivity, utilization, routing, and maintenance. Industry and time comparisons yield significant improvements.

Azuga SafetyCam

The technology you need at a price you can afford.

- Get visibility into unsafe driving activity.
- Identify and coach high-risk drivers better.
- Reduce the risk and cost of accidents.
- Prevent frivolous claims and exonerate drivers.
- View event videos from within Azuga Fleet or Azuga FleetMobile.

Azuga Coach

End poor driving habits with training solutions tailored to fit every driver.

- Targeted training based on driver score makes it easy to use.
- Drivers learn on their own time, through their mobile device or via an email link.
