

DIGITAL DRAWING & PAINTING FOR BEGINNERS

INSTRUCTOR: HARVEY CHAN

Suggested brand names are *'italicized'*. Additional materials are also welcome.

WHAT WE PROVIDE

- Easels, side tables, chairs & stools, and extension cables for charging.

DIGITAL DEVICES

Please bring a tablet or computer that is compatible with on-screen drawing with a stylus (not a mouse). Both *'Apple'* and *'Android'* devices are welcome. Recommended models are:

- *'Apple iPad'* with compatible *'Apple Pencil'*
- *'Android'* tablet with compatible stylus
- Computer laptop with *'Wacom Intuos'* or *'Cintiq'* tablet

Note: Please bring your device fully charged and don't forget to bring your device charger, just in case!

SOFTWARE

During the course, Harvey will demonstrate digital painting skills using the software *'Procreate'*, which is exclusively available on *'Apple'* devices.

However, for students who have *'Windows'* or *'Android'* devices, we recommend using *'Clip Studio Paint'*. It is an affordable alternative with an interface that is similar to *'Procreate'*. Before attending the class, please ensure that the software is installed, updated and tested with your stylus.

If you prefer to use different software, it is important to familiarize yourself with it beforehand. Harvey will provide individualized instruction to each student to ensure a personalized learning experience.
