

**Portatrain™ Fire™** is a portable Fire Alarm System demonstration tool which assists persons responsible for Fire Safety Management to provide training in the testing and operation of Fire Alarm System(s) under their jurisdiction in accordance with BS9999.

Now with Fire Alarm Demo™, you can provide training on or off site without causing disruption to other occupants or service users.

Fire Alarm Demo™ is built to your exact specification to replicate the exact system(s) on your site(s).

### Features:

- Rugged Carry Case
- Connects to standard mains socket
- Self-supporting in open position
- Fire Alarm Control Panel mounted on swivel bracket to facilitate viewing
- Manual Call Point(s), Fire Detector(s) & Alarm Sounder/Beacon(s) incorporated to your specification
- Alarm warning tone configured to match your premises
- Can be supplied pre-programmed with Cause and Effect as required

**So, whatever system(s) you have installed take the pain out of Fire Alarm Training with a Fire Alarm Demo™ from Fixfire®**
