

## The HSE Fire Safety Construction – Revised Guide HSG168

The latest edition of the Fire Safety in Construction Guide - HSG168 explains the need to eliminate, and or mitigate fire risks during the design phase and how to prevent site fires from starting and ensuring people's safety if they do.

**Download  
The HSE Revised Guide**

It is relevant to all construction projects, small and large, and is aimed at everyone with a role in developing, managing and applying safety standards on site. Construction projects include those involving demolition, new build, maintenance and refurbishment, and site investigation.

This Fire Safety in Construction guide aims to support those with legal duties under the Construction (Design and Management) Regulations 2015 (CDM), and under Fire Safety legislation, to embed good Fire Risk management from design through to project completion.

A Fire Safety Risk Assessment should be the foundation for all the fire precautions for the site.

Legislation requires a suitable and sufficient Fire Safety Risk Assessment to be carried out by a responsible person. The responsible person will usually be the main or principal contractor in control of the site.

False Alarms and unwanted fire signals can be costly on any construction project however careful selection of fire safety systems can reduce this nuisance.

Fixfire® delivers site Fire Safety at all stages and types of construction including temporary protection as well as systems, products and services for completed buildings.

HireAlarm® is a Fire Alarm rental service that enables you to protect your site(s) for as long as you need to.

Construction site Fire Extinguishers, Stands, Trolleys, Cabinets, Signage and temporary Fire Alarm Systems are all provided with the requisite installation and maintenance services from our expert team of directly employed, trained and certified engineers.

Fixfire® also supplies Means of Escape Hardware and Passive Fire Protection products including Intumescent Seals, Air Transfer Grilles and Pipe Collars.
