

## Cultivating Seeds of New Life Through Evangelism

We are witnessing the church grow and people being drawn to Christ through the ministries of Belize Friends Church. A group of youth who did not come to church, but often came to the Center to do homework, started attending regularly. A Friend from Pennsylvania, who often visits our church while in Belize, invited her brother and his children to church. They have been coming since then. Chris and Clifton, our Belizean pastors, are doing outreach to the community. Chris started a Bible study with his friend, a local taxi man. The friend has started attending church. They are inviting others to their Bible study group. Clifton is providing pastoral care to victims of violence who he encounters while on duty as a police officer. He has invited Belize Friends to help discern how to grow a ministry of healing and transformation for victims of violence. Our youth continue to invite their friends or cousins to church. Sometimes, we are not able to bring everyone who needs transportation

to our worship services. Belize Friends Church is blessed by people who visit us and continue to worship with us. We are blessed to see our young members inviting their friends to church. We are witnessing the many ways lives are being transformed in their encounters with Christ and Belize Friends Church.
